ZR-3 FOLLOWING THE ROUTE OF COLUMBUS

REACHED AZORES IN AFTERNOON AND CONTINUES FLIGHT

FIRST LEG TO ISLANDS WAS
MADE IN 31½ HOURS'
TIME

SPEED ATTAINED AT ONE TIME
UP TO 130 MILES AN
HOUR

(By United Press)
Berlin, Oct. 13.—Speeding safely
1,600 miles from her starting point
at Friedrichshafen, the giant Zeppelin
ZR-3 reached the Azores this afternoon
and passed high overhead
above the little group of islands,
steadily pursuing her westward
course toward America.

Wireless reports reached Friedrichshafen
that the dirigible making
good time, had arrived at the Azores
at approximately 2 p. m. and continued
on her way.

The Zeppelin takes off on another
1,600-mile leg to Bermuda where she
turns northward to Lakehurst, N. J.
Spanish stations relayed messages
reporting the safe progress of the
airship.

"All well on board" was the message
picked up by the Friedrichshafen
wireless station. The latest one
sent to the Zeppelin was to a member
of the crew from his "Weibie,"
which is affectionate Swabian dialect
for wife.

The dirigible now is following the
course taken by Christopher Columbus
little more than 432 years ago.

The flight from Friedrichshafen to
the Azores required 31½ hours, not
particularly fast time, although the
Zeppelin at one time was traveling
along at a speed of 130 miles an
hour.

On its flight to surrender to the
United States navy the Zeppelin is
carrying 30 officers and men. Dr.
Eckener, in charge, hopes to demonstrate
by the voyage the practicability
of airships for passenger flights—
and thus obtain some revision of the
Versailles treaty, which forbids the
building of these giants of the skies.

There are four Americans aboard,
Capt. Steele and Commanders Krause
and Klein of the navy and Major
Kennedy of the army.

None of the crew or observers is
permitted smoking tobacco in any
form nor alcohol. Word was received,
however, that the ZR-3 will be
searched for liquor like any other
vessel whether on sea or in the air,
upon her arrival at Lakehurst. The
only stimulants aboard are locked in
the Zeppelin's medicine chest.

(While shorter than the Shenandoah
by 24 feet, the ZR-3 is nearly
12 feet larger in diameter and her
height over all is 8½ feet greater
than that of the American dirigible.
Empty she weighs 12,950 pounds
more than the Shenandoah.)

**ARCTIC STORM FORECAST
DELAYS SHENANDOAH**

San Diego, Calif., Oct. 13.—Due to
reports of an Arctic storm sweeping
southward, the flight of the dirigible
Shenandoah from San Diego to Camp
Lewis, Wash., was postponed until
7:30 a. m. tomorrow. The flight was
to have been resumed today.

**WCC IN CONTACT
WITH THE ZR-3**

Chatham, Mass., Oct. 13.—WCC,
powerful wireless station here, established
communication with the ZR-3
early today but lost direct contact at
dawn.

At the time the Zeppelin was picked
up the ZR-3 was cruising toward
the Azores. A later message, relayed
by vessels at sea, said the airship
had reached the islands about noon,
Greenwich mean time.

The Zeppelin's call is NEMR, and
WCC got its messages distinctly
through the night but had difficulty
in replying because the dirigible's
motors interfered with its receiving
sets.

WCC will "speak" to the ZR-3 at
alternate hours, starting at 5 p. m.
today.

**STORM MAY HOLD
UP ZR-3 PROGRESS**

Washington, Oct. 13.—Weather
conditions in the path of the ZR-3

Four Eastern Roads Present a New Merger Plan

HART IS FREED TO WED HIS AFFINITY, PROFESSOR'S WIFE

(By United Press)
Cincinnati, Oct. 13.—Frederick
William Hart, described as the
"perfect passionate lover," was
freed today to marry his affinity,
Mr. Shirley Knox Hall-Quest, di-
vorced wife of a Pittsburgh uni-
versity professor.

Mrs. Hart divorced him today,
giving as the basis for her action
his associations with Mrs. Hall-
Quest.

The first chapter of the Hart af-
fair was written in Chicago re-
cently when the professor di-
vorced his wife so that she could
go to Hart, whom she described as
her "perfect passionate lover."

CHANG TSO LIN LOSES VALUABLE ALLY IN WAR

HSIANG AND CHIEF OF STAFF
FLEE ABOARD JAPANESE
VESSEL

CHEKIANG DEFENSES BEFORE
SHANGHAI HAVE COL-
LAPSED

(By United Press)
Shanghai, Oct. 13.—The war in
Kiangsu came virtually to an end
today and Chang Tso Lin has lost a
valuable ally.

General Lu Yung Hsiang and his
chief of staff, Ho Feng Lin, fled
aboard a Japanese vessel, while the
Chekiang defenses before Shanghai
collapsed.

Chi Hsieh Yuan's forces are ad-
vancing without opposition to take
possession of Shanghai.

The civilian population outside the
foreign settlement are panic-stricken
and are attempting to enter the con-
cession.

American, French and British mar-
ines are mobilized at the barriers to
prevent a rush into the settlement.
The principal trouble is expected with
20,000 Shantung mercenaries left
stranded by Lu when he fled to save
his head.

Lu took a fortune with him when he
fled. Looting of the native dis-
tricts is feared tonight, although
Chi Hsieh Yuan's troops have been
warned to respect the rights of civil-
ians and especially foreigners in
Shanghai.

The outcome of the two months' battle
for Shanghai means that Chi
soon will be able to re-enforce his
ally, Wu Pei Fu, who is combating
Chang Tso Lin in the north. Lu,
Chang's ally, has failed him.

New Building Opens Wednesday

Winona, Minn., Oct. 13.—Formal
opening to the public of the new main
building of Winona Teachers' college
will take place next Wednesday. The
building was erected at a cost of
\$25,000 to replace the one destroyed
by fire about two years ago.

are becoming unsettled and a storm
may hold up her progress, observers
on the cruisers Detroit, Milwaukee
and the supply ship Patoka reported
to the navy yard today.

Navy department officials said that
if the storm develops the dirigible
may not arrive at Lakehurst before
Wednesday night or Thursday morn-
ing.

Admiral Eberle, chief of operations
today ordered the Milwaukee station-
ed 200 miles east of Halifax, N. S.,
to move to a point 500 miles fur-
ther south to insure better radio con-
tact with the airship.

**ZR-3 NOW CRUISING
TO THE BERMUDAS**

Chatham, Mass., Oct. 13.—Leaving
the Azores far behind, the ZR-3 is
cruising toward Bermuda at a speed
of 50 miles an hour, wireless mes-
sages received from the Zeppelin via
the steamer Sierra Ventura said this
afternoon.

AMERICAN PREACHERS ARE REPORTED SAFE

MR. AND MRS. PAUL GLEASON,
ATTACKED BY INDIAN MOB,
RECOVERING

NATIVES INVOLVED IN RIOT NOW
HELD IN CLOSE CONFINEMENT

(By United Press)
Rangoon, India, Oct. 13.—Mr. and
Mrs. Paul Gleason of California, American
preachers in the missionary
school near here, who were attacked
by natives during the rioting which
followed word that Mahatma Ghandi
had broken his self-imposed fast,
were reported as "progressing favor-
ably" in the hospital today.

Miss Beryl Snell, teacher at the
same school, for whose safety fear
had been expressed, is safe and un-
harmed.

A number of natives alleged to
have been in the mob that attacked
the Americans have been arrested
and were held in close confinement un-
til a thorough investigation of the
assault has been made.

NO COAL SHORTAGE IN THE NORTHWEST

COAL DOCKS AT DULUTH AND
SUPERIOR ARE WELL
LOADED

(By United Press)
St. Paul, Oct. 13.—There will be
no coal shortage in the Northwest
this year.

The State Railroad and Warehouse
commission today received figures
showing that on September 15 there
were 839,000 tons more coal un-
loaded in the Duluth and Superior docks
than at the same time last year.

CONTEMPT SUIT TO BE HEARD DEC. 1

BROUGHT AGAINST MAL DAUGHTERY
FOR REFUSING SENATE
COMMITTEE REQUEST

(By United Press)
Washington, Oct. 13.—The Su-
preme Court today advanced to De-
cember 1 the hearing of the contempt
suit brought against Mal Daugherty
brother of the former attorney-gen-
eral for his refusal to yield certain
evidence to the Senate investigating
committee when Daugherty refused
the request by the committee, he was
arrested by the Senate sergeant-at-
arms for contempt of the Senate. He
was freed from arrest on a writ of
habeas corpus granted by the federal
district court in southern Ohio.

From this judgment the United
States appealed to this court. The
supreme court must decide in the
case upon the extent of the authority
of the court to compel a citizen to
testify before an investigating com-
mittee.

WINS ARREST SUIT AGAINST DRY CHIEF

St. Paul, Oct. 13.—Emerson E.
Hunt, former St. Paul federal probi-
dition director, must pay \$750 for al-
leged unlawful detention of a Tilden,
Neb., dry-law violator suspect, a fed-
eral court at Norfolk, Neb., decided.

Dispatches from Norfolk state that
Ludwig Wendt was granted total
damages of \$750 on his suit for \$10,-
000 against Hunt and C. M. Mc-
Millan, prohibition agent.

Testimony showed that Wendt had
been held in jail with no complaint
filed against him from July 5, 1923,
to July 7 and without opportunity of
giving bail. The defense testified no
complaint was filed because the fed-
eral agents were waiting instructions
from the United States district attor-
ney.

FORD WITHDRAWS HIS OFFER FOR MUSCLE SHOALS

(By United Press)
Detroit, Oct. 13.—Henry Ford
has withdrawn his offer to pur-
chase Muscle Shoals, a spokesman
for Ford said today. Ford officials
would not discuss the matter, other
than to say that the withdraw-
al already had been offered to
government officials.

PRINCE NOW IN CHICAGO, 18 HOUR VISIT

POLICE KEEP BACK 200 DEBU-
TANTES WISHING TO STORM
PRINCE

FLAPPERS HOPPED ON MOTOR
TRUCK TOPS TO GAIN VIEW
OF ROYALTY

(By United Press)
Lake Forest, Ill., Oct. 13.—Hungry
but cheerful, H. R. H. the Prince of
Wales arrived at this palatial suburb
at 8:25 a. m. from Winnipeg for
eighteen hours of sightseeing and en-
tertainment in Chicago.

Louis F. Swift, Sr., of the vast
packing establishment bearing that
name, with a select little group met
the party at the station and after a
brief ceremony the party was taken
to the Swift home for breakfast.
Swift is host to David Windsor and
his companions for half the day.

Squads of police kept back 200 of
the "unselect" from the Prince's
train. Only Swift and a few friends
were allowed inside the charmed
circle. The "unselect" included
many debutantes of the palatial sub-
urb not invited to meet David Win-
dors. Unabashed, the flappers hopped
on motor trucks, climbed the tops of
automobiles and gates to get a
glimpse of the Prince.

A wild cheer went up as H. R. H.
appeared on the rear platform. Blush-
ing and smiling, David Windsor saluted
the crowd by doffing his grey-
blue hat and waving his hands. The
Prince was dressed in a gray suit,
blue shirt, blue tie and broad, com-
fortable shoes.

As the Prince and his escort start-
ed to the Swift limousine parked
about 150 feet from the train, H. R.
H. gazed with mock fear on the
crowd, which refused to give way.
Police, waving their clubs, broke
an avenue through the crowd.

Before being taken to the Swift
home for breakfast, the Prince was
taken for a drive through the beau-
tiful suburb, to see the great McCor-
mick and other estates.

David Windsor selected one of the
extra seats in the car. H. R. H.
leaned far out to get a good view of
the scenery.

Servants were mounted at points
of vantage on some of the estates and
they waved and cheered. David
Windsor returned the salutes by wav-
ing his hat and hands.

The gates of the Swift home clang-
ed on the newspaper men and a corps
of motorcycle policemen took up the
guard. After breakfast the Prince
will pay a visit to the packing plant,
where Swift hopes to get H. R. H. to
ride one of the horses. At the stock-
yards there are several finely blood-
ed horses and if the Prince agrees the
entire party will take a horseback
ride.

A trip about Chicago is planned
and the party will depart about mid-
night, according to present plans.

Accused of Using Car as Deadly Weapon

Frank Barned, 26, an electrical
contractor of London, Ont., is charged
with deliberately driving his au-
tomobile on a sidewalk at Niagara
Falls, Ont., and killing Smylie Muir-
head. Muirhead and his wife were
out walking with Barned's estranged
wife. Barned escaped and police
have failed to find him.

SUPREME COURT DECLINES TO CONSIDER APPEAL

ECHO OF STRIKE COMMITTEE
CHARGED WITH INCITING
STRIKE IN SANTA FE

ALLEGED CONSPIRACY TO OB-
STRUCT MAILS AND INTER-
STATE COMMERCE

(By United Press)
Washington, Oct. 13.—The supreme
court today declined to consider the
appeal of members of the alleged
"strike committee" charged with
having incited the Big Four strike
on the Santa Fe railroad in 1922
from the conviction of conspiracy to
obstruct the mails and interfere with
interstate commerce.

The appellants were charged with
persuading engineers, trainmen and
other employees to strike on the
ground that the shopmen's strike had
made rolling stock unsafe. They
were found guilty in Federal district
court in California and fined \$1,250
each. After an appeal to the circuit
court had been denied they petitioned
this court for a review, contend-
ing that there was no proof of con-
spiracy.

BOOTLEGGER NEWS BARRED BY WCCO

STATION WILL NOT BROADCAST
STOLEN CARS OR TRAILING
BOOTLEGGERS

(By United Press)
Minneapolis, Oct. 13.—A bootleg-
ger is only a bootlegger and an au-
tomobile thief is only a thief, as far as
radio station WCCO is concerned. The
station management announced to-
day that it would announce criminal
news every morning, but that stolen
automobiles and trailing of bootleg-
gers could not be handled.

YEGGMEN CRACK 4 TWIN CITY SAFES

LOOT FROM THREE PLACES
AMOUNTED TO
\$1850

(By United Press)
St. Paul, Oct. 13.—Yeggmens last
night cracked four safes in the Twin
Cities.

At the Raymer Hardware company,
St. Paul, they obtained \$700; at the
Garrott Chocolate company, no loot;
and at the Randall Printing com-
pany, St. Paul, \$1,000; at a Pure
Oil filling station in Minneapolis,
\$150.

Railway Officials Lift Duluth Grain Embargo

St. Paul, Oct. 13.—P. J. Cole-
man, chairman of the joint terminal
committee of the northwest regional
advisory board of American Railway
association, announced that an em-
bargo on incoming grain at Duluth
has been lifted.

The decision to lift the embargo
was reached late Saturday by rail-
way officials acting on recommenda-
tions voted by the committee Thurs-
day.

BELGIUM JOINS THE AMERICAN RELIEF PLAN

Brussels, Belgium, Oct. 13.—Paul
Hymans, president of the council of
the League of Nations, will direct the
observance throughout Belgium of
Golden Rule Sunday, Dec. 7, on be-
half of refugee orphans of the Near
East. M. Hymans last month pre-
sided over the first golden rule din-
ner in Geneva, when orphanage fare
—a four-cent meal—was served from
tin cups and earthen bowls made in
American orphanages in Jerusalem.

OHIO SENATOR PREDICTS DEFEAT OF MAGNUS JOHNSON

(By United Press)
St. Paul, Oct. 13.—Predicting
the defeat of Magnus Johnson,
Senator Simeon D. Fess of Ohio
today declared Coolidge and
Dawes and Thomas D. Schall will
carry Minnesota for the Repub-
licans.

"It will be a political battle
such as 1916 in Minnesota," said
the senator, "and a Republican
victory depends on getting out the
vote. I am confident the vote will
be out."

Congressman Schall, Republican
nominee for United States sena-
tor, was present with a new vari-
ety of potatoes at Badger, Minn.,
Sunday, which has been named the
Thomas Schall potato.

ANATOLE FRANCE DEAD, AND ALL OF FRANCE MOURNS

"ALL WHO LOVE BEAUTY IN THE
WORLD" ARE SOR-
ROWING

AUTHOR OF THAIS PASSED AWAY
AT THE AGE OF 80
YEARS

(By United Press)
Paris, Oct. 11.—Anatole France is
dead and all Paris mourned his pass-
ing.

"Throughout the civilized world
today," says the Echo de Paris, sum-
ming up Parisian opinion on the be-
loved writer, "all those who love
beauty in the world and who appre-
ciate royalty of spirit are mourning."

The author of Thais and Le Jong-
leur de Notre Dame passed away at
Tours Sunday after a long illness.
He was 80 years old.

AUTO IS PLACED IN 'HOCK' FIRST TIME IN CITY'S HISTORY

St. Paul, Oct. 13.—For the first
time in St. Paul's history an automo-
bile has been pawned.

Early Saturday afternoon F. J.
Morris, 175 Pleasant ave., drove his
car up to Fred Robinson's pawnshop
at 156 E. 6th st. and obtained a loan
of \$40 on it.

Possibly he was betting on the
world series, for later in the after-
noon he returned and wanted to get
it back. The city ordinance pro-
vides, however, that pawned goods
must be held 72 hours, so he had to
go home without it.

ARMENIA PLANNING NEW FAMINE FIGHT

Erivan, Russian Armenia, Oct. 13.
A desperate fight to avert famine
next winter is being planned by Ar-
menia and other Caucasian States of
South Russia. Throughout the coun-
try, rigid rationing has been inau-
gurated and merchants are being ar-
rested for any attempt at usury in
grain. Bread supplies will be econ-
omized throughout the autumn. Se-
vere droughts are reported by the
Near East Relief from all grain-
growing districts, but serious short-
ages are not expected until winter.

Sugar Beets Are Harvested

Worthington, Minn., Oct. 13.—Nobles
county's first harvest of sugar beets
is now under way. The beets from
an acreage of 1,200 acres are to be
gathered and prepared for shipment
to an Iowa factory. The crop here is
said to be very satisfactory.

Highway Fund Controversy

Luverne, Minn., Oct. 13.—Unless the
county commissioners of Rock county
change their views in regard to voting
highway refundment bonds, the city
of Luverne will lose \$45,154. A test
vote of the commission showed only
one vote in favor of the bond issue.

SUBMITTED TO I. C. C. BY THE RAIL EXECUTIVES

INVOLVES N. Y. CENTRAL, PENN-
SYLVANIA, B. & O., NICKEL
PLATE

RAILWAYS EAST OF CHICAGO,
NORTH OF OHIO RIVER, TO BE
GROUPED AROUND THEM

(By United Press)
Washington, Oct. 13.—All rail-
roads east of Chicago and north of
the Ohio river would be grouped
around the New York Central, Penn-
sylvania, the Baltimore & Ohio and
the Nickel Plate, under the terms of
a merger plan reported to have been
laid before the Interstate Commerce
Commission by executives of the
roads named.

The plan is said to have been sub-
mitted Saturday by O. O. Crowley of
the New York Central, Samuel Rae of
the Pennsylvania and Daniel Wil-
lard of the Baltimore & Ohio, and
the Van Sweringen brothers of the
Nickel Plate, as an alternative to the
commission's tentative consolidation
plan which calls for nine systems in
the eastern region.

1,500 DOCTORS AT K. C. CONVENTION

(By United Press)
Kansas City, Mo., Oct. 13.—Mem-
bers of the Medical association of the
southwest and the American Health
association were gathering here to-
day for a week of medical lore.

More than fifteen hundred physi-
cians from Kansas, Missouri, Nebras-
ka, Oklahoma, Texas and other states
were expected to be registered by
noon.

Sessions will start this afternoon
in convention hall, where also is the
largest exhibit of medical and scien-
tific apparatus ever assembled here.

A feature of the meeting tonight is
a program on public safety and in-
dustrial surgery. Speakers at this
meeting are Herbert Hoover, presi-
dent of the Southwest association; Dr.
William O'Neill Sherman, chief
surgeon of the Carnegie Steel Com-
pany, and Isaiah Hale, chairman of
the safety section of the American
Railway Association.

Twelve nationally known physi-
cians were here from nearby states
and were to speak on the scientific
program.

Campaign Fund Probers Will Meet in Chicago

Chicago, Oct. 13.—Official notifica-
tion that the senate campaign fund
investigating committee will meet in
Chicago next Wednesday or Thurs-
day was received from Sen. Borah,
chairman, by William M. Butler,
chairman of the republican national
committee, today.

Following receipt of the telegram
from Borah, Butler declared that con-
tributions to the republican cam-
paign fund have totalled "approx-
imately \$1,995,000."

Potato Seedlings

Albert Lea, Minn., Oct. 13.—David-
son Brothers, farmers living near Lon-
don, Freeborn county, have sent sam-
ples of potato seedlings to a seed-
house of Waterloo, Ia. These seed-
lings grew on the Davidson patch.
They are encased in a green berry
about twice the size of a ground cherry
and the seeds are said to be worth
several dollars a thimbleful. Almost
invariably potatoes are grown from
tuber cuttings, the seedlings being
practically unknown.

G. O. P. Rally at Wheaton

Wheaton, Minn., Oct. 13.—Gunnar
Bjornson, candidate for representative
from the seventh district on the Re-
publican ticket, and Curtis Johnson,
spoke here to a large audience. The
Farmer-Labor party will have a po-
litical rally here Oct. 14 with Magnus
Johnson as the topliner.

AMERICAN PREACHERS ARE REPORTED SAFE

MR. AND MRS. PAUL GLEASON,
ATTACKED BY INDIAN MOB,
RECOVERING

NATIVES INVOLVED IN RIOT NOW
HELD IN CLOSE CONFINEMENT

(By United Press)
Rangoon, India, Oct. 13.—Mr. and
Mrs. Paul Gleason of California, American
preachers in the missionary
school near here, who were attacked
by natives during the rioting which
followed word that Mahatma Gandhi
had broken his self-imposed fast,
were reported as "progressing favorably"
in the hospital today.

Miss Beryl Snell, teacher at the
same school, for whose safety fear
had been expressed, is safe and unharmed.

A number of natives alleged to
have been in the mob that attacked
the Americans have been arrested
and were held in close confinement until
a thorough investigation of the
assault has been made.

NO COAL SHORTAGE IN THE NORTHWEST

COAL DOCKS AT DULUTH AND
SUPERIOR ARE WELL
LOADED

(By United Press)
St. Paul, Oct. 13.—There will be
no coal shortage in the Northwest
this year.

The State Railroad and Warehouse
commission today received figures
showing that on September 15 there
were 830,000 tons more coal unloaded
in the Duluth and Superior docks
than at the same time last year.

CONTEMPT SUIT TO BE HEARD DEC. 1

BROUGHT AGAINST MAL DAUGHERTY
FOR REFUSING SENATE
COMMITTEE REQUEST

(By United Press)
Washington, Oct. 13.—The Supreme
Court today advanced to December
1 the hearing of the contempt
suit brought against Mal Daugherty
brother of the former attorney-general
for his refusal to yield certain
evidence to the Senate investigating
committee when Daugherty refused
the request by the committee, he was
arrested by the Senate sergeant-at-arms
for contempt of the Senate. He
was freed from arrest on a writ of
habeas corpus granted by the federal
district court in southern Ohio.

From this judgment the United
States appealed to this court. The
supreme court must decide in the
case upon the extent of the authority
of the court to compel a citizen to
testify before an investigating committee.

WINS ARREST SUIT AGAINST DRY CHIEF

St. Paul, Oct. 13.—Emerson E.
Hunt, former St. Paul federal prohibition
director, must pay \$750 for alleged
unlawful detention of a Tilden,
Neb., dry-law violator suspect, a federal
court at Norfolk, Neb., decided.

Dispatches from Norfolk state that
Ludwig Wendt was granted total
damages of \$750 on his suit for \$10,000
against Hunt and C. M. McMillan,
prohibition agent.

Testimony showed that Wendt had
been held in jail with no complaint
filed against him from July 5, 1923,
to July 7 and without opportunity of
giving bail. The defense testified no
complaint was filed because the federal
agents were waiting instructions
from the United States district attorney.

FORD WITHDRAWS HIS OFFER FOR MUSCLE SHOALS

(By United Press)
Detroit, Oct. 13.—Henry Ford
has withdrawn his offer to purchase
Muscle Shoals, a spokesman
for Ford said today. Ford officials
would not discuss the matter, other
than to say that the withdrawal
already had been offered to
government officials.

PRINCE NOW IN CHICAGO, 18 HOUR VISIT

POLICE KEEP BACK 200 DEBUTANTES
WISHING TO STORM
PRINCE

FLAPPERS HOPPED ON MOTOR
TRUCK TOPS TO GAIN VIEW
OF ROYALTY

(By United Press)
Lake Forest, Ill., Oct. 13.—Hungry
but cheerful, H. R. H. the Prince of
Wales arrived at this palatial suburb
at 8:25 a. m. from Winnipeg for
eighteen hours of sightseeing and entertainment
in Chicago.

Louis F. Swift, Sr., of the vast
packing establishment bearing that
name, with a select little group met
the party at the station and after a
brief ceremony the party was taken
to the Swift home for breakfast.
Swift is host to David Windsor and
his companions for half the day.

Squads of police kept back 200 of
the "unselect" from the Prince's
train. Only Swift and a few friends
were allowed inside the charmed
circle. The "unselect" included
many debutantes of the palatial suburb
not invited to meet David Windsor.
Unabashed, the flappers hopped
on motor trucks, climbed the tops of
automobiles and gates to get a
glimpse of the Prince.

A wild cheer went up as H. R. H.
appeared on the rear platform. Blushing
and smiling, David Windsor saluted
the crowd by doffing his grey-blue
hat and waving his hands. The
Prince was dressed in a gray suit,
blue shirt, blue tie and broad, comfortable
shoes.

As the Prince and his escort started
to the Swift limousine parked
about 150 feet from the train, H. R.
H. gazed with mock fear on the
crowd, which refused to give way.
Police, waving their clubs, broke
an avenue through the crowd.

Before being taken to the Swift
home for breakfast, the Prince was
taken for a drive through the beautiful
suburb, to see the great McCormick
and other estates.

David Windsor selected one of the
extra seats in the car. H. R. H.
leaned far out to get a good view of
the scenery.

Servants were mounted at points
of vantage on some of the estates and
they waved and cheered. David
Windsor returned the salutes by waving
his hat and hands.

The gates of the Swift home clanged
on the newspaper men and a corps
of motorcycle policemen took up the
guard. After breakfast the Prince
will pay a visit to the packing plant,
where Swift hopes to get H. R. H. to
ride one of the horses. At the stock-
yards there are several finely blooded
horses and if the Prince agrees the
entire party will take a horseback ride.

A trip about Chicago is planned
and the party will depart about midnight,
according to present plans.

Accused of Using Car as Deadly Weapon

Frank Banned, 26, an electrical
contractor of London, Ont., is charged
with deliberately driving his automobile
on a sidewalk at Niagara Falls, Ont.,
and killing Smyrle Muirhead. Muirhead
and his wife were out walking with
Banned's estranged wife. Banned escaped
and police have failed to find him.

SUPREME COURT DECLINES TO CONSIDER APPEAL

ECHO OF STRIKE COMMITTEE
CHARGED WITH INCITING
STRIKE IN SANTA FE

ALLEGED CONSPIRACY TO OBSTRUCT
MAILS AND INTER-STATE
COMMERCE

(By United Press)
Washington, Oct. 13.—The supreme
court today declined to consider the
appeal of members of the alleged
"strike committee" charged with
having incited the Big Four strike
on the Santa Fe railroad in 1922
from the conviction of conspiracy to
obstruct the mails and interfere with
interstate commerce.

The appellants were charged with
persuading engineers, trainmen and
other employees to strike on the
ground that the shippers' strike had
made rolling stock unsafe. They
were found guilty in Federal district
court in California and fined \$1,250
each. After an appeal to the circuit
court had been denied they petitioned
this court for a review, contending
that there was no proof of conspiracy.

BOOTLEGGER NEWS BARRED BY WCCO

STATION WILL NOT BROADCAST
STOLEN CARS OR TRAILING
BOOTLEGGERS

(By United Press)
Minneapolis, Oct. 13.—A bootlegger
is only a bootlegger and an automobile
thief is only a thief, as far as
radio station WCCO is concerned. The
station management announced today
that it would announce criminal
news every morning, but that stolen
automobiles and trailing of bootleggers
could not be handled.

YEGGMEN CRACK 4 TWIN CITY SAFES

LOOT FROM THREE PLACES
AMOUNTED TO
\$1850

(By United Press)
St. Paul, Oct. 13.—Yeggmen last
night cracked four safes in the Twin
Cities.

At the Raymer Hardware company,
St. Paul, they obtained \$700; at the
Garrett Chocolate company, no loot;
and at the Randall Printing company,
St. Paul, \$1,000; at a Pure
Oil filling station in Minneapolis,
\$150.

Railway Officials Lift Duluth Grain Embargo

St. Paul, Oct. 13.—P. J. Coleman,
chairman of the joint terminal
committee of the northwest regional
advisory board of American Railway
association, announced that an embargo
on incoming grain at Duluth
has been lifted.

The decision to lift the embargo
was reached late Saturday by railway
officials acting on recommendations
voted by the committee Thursday.

BELGIUM JOINS THE AMERICAN RELIEF PLAN

Brussels, Belgium, Oct. 13.—Paul
Hymans, president of the council of
the League of Nations, will direct the
observance throughout Belgium of
Golden Rule Sunday, Dec. 7, on behalf
of refugee orphans of the Near East.
M. Hymans last month presided
over the first golden rule dinner
in Geneva, when orphanage fare—a
four-cent meal—was served from tin
cups and earthen bowls made in
American orphanages in Jerusalem.

OHIO SENATOR PREDICTS DEFEAT OF MAGNUS JOHNSON

(By United Press)
St. Paul, Oct. 13.—Predicting
the defeat of Magnus Johnson,
Senator Simeon D. Fess of Ohio
today declared Coolidge and
Davies and Thomas D. Schall will
carry Minnesota for the Republicans.

"It will be a political battle
such as 1916 in Minnesota," said
the senator, "and a Republican
victory depends on getting out the
vote. I am confident the vote will
be out."

Congressman Schall, Republican
nominee for United States senator,
was present with a new variety
of potatoes at Badger, Minn.,
Sunday, which has been named
the Thomas Schall potato.

ANATOLE FRANCE DEAD, AND ALL OF FRANCE MOURNS

"ALL WHO LOVE BEAUTY IN THE
WORLD" ARE SORROWING

AUTHOR OF THAIS PASSED AWAY
AT THE AGE OF 80
YEARS

(By United Press)
Paris, Oct. 11.—Anatole France is
dead and all Paris mourned his passing.

"Throughout the civilized world
today," says the Echo de Paris, summing
up Parisian opinion on the beloved
writer, "all those who love
beauty in the world and who appreciate
royalty of spirit are mourning."

The author of Thais and Le Jongleur
de Notre Dame passed away at
Tours Sunday after a long illness.
He was 80 years old.

AUTO IS PLACED IN 'HOCK' FIRST TIME IN CITY'S HISTORY

St. Paul, Oct. 13.—For the first
time in St. Paul's history an automobile
has been pawned.

Early Saturday afternoon F. J.
Morris, 175 Pleasant ave., drove his
car up to Fred Robinson's pawnshop
at 156 E. 6th st. and obtained a loan
of \$40 on it.

Possibly he was betting on the
world series, for later in the afternoon
he returned and wanted to get
it back. The city ordinance provides,
however, that pawned goods
must be held 72 hours, so he had to
go home without it.

ARMENIA PLANNING NEW FAMINE FIGHT

Erivan, Russian Armenia, Oct. 13.
A desperate fight to avert famine
next winter is being planned by Armenia
and other Caucasian States of
South Russia. Throughout the country,
rigid rationing has been inaugurated
and merchants are being arrested
for any attempt at usury in grain.
Bread supplies will be economized
throughout the autumn. Severe
droughts are reported by the
Near East Relief from all grain-growing
districts, but serious shortages
are not expected until winter.

Sugar Beets Are Harvested

Worthington, Minn., Oct. 13.—Nobles
county's first harvest of sugar beets
is now under way. The beets from
an acreage of 1,200 acres are to be
gathered and prepared for shipment
to an Iowa factory. The crop here is
said to be very satisfactory.

Highway Fund Controversy

Luverne, Minn., Oct. 13.—Unless the
county commissioners of Rock county
change their views in regard to voting
highway refundment bonds, the city
of Luverne will lose \$45,154. A test
of the commission showed only
one vote in favor of the bond issue.

SUBMITTED TO I. C. C. BY THE RAIL EXECUTIVES

INVOLVES N. Y. CENTRAL, PENNSYLVANIA, B. & O., NICKEL
PLATE

RAILWAYS EAST OF CHICAGO,
NORTH OF OHIO RIVER, TO BE
GROUPED AROUND THEM

(By United Press)
Washington, Oct. 13.—All railroads
east of Chicago and north of the
Ohio river would be grouped around
the New York Central, Pennsylvania,
Baltimore & Ohio and the Nickel
Plate, under the terms of a merger
plan reported to have been laid
before the Interstate Commerce
Commission by executives of the
roads named.

The plan is said to have been submitted
Saturday by O. O. Crowley of the
New York Central, Samuel Rae of
the Pennsylvania and Daniel Wil-
lard of the Baltimore & Ohio, and
the Van Sweringen brothers of the
Nickel Plate, as an alternative to the
commission's tentative consolidation
plan which calls for nine systems in
the eastern region.

1,500 DOCTORS AT K. C. CONVENTION

(By United Press)
Kansas City, Mo., Oct. 13.—Members
of the Medical association of the
southwest and the American Health
association were gathering here today
for a week of medical lore.

More than fifteen hundred physicians
from Kansas, Missouri, Nebraska,
Oklahoma, Texas and other states
were expected to be registered by
noon.

Sessions will start this afternoon
in convention hall, where also is the
largest exhibit of medical and scientific
apparatus ever assembled here.

A feature of the meeting tonight is
a program on public safety and industrial
surgery. Speakers at this meeting
are Herbert Hoover, president of the
Southwest association; Dr. William O'Neill
Sherman, chief surgeon of the Carnegie
Steel Company, and Isaiah Hale, chairman
of the safety section of the American
Railway Association.

Twelve nationally known physicians
were here from nearby states
and were to speak on the scientific
program.

Campaign Fund Probers Will Meet in Chicago

Chicago, Oct. 13.—Official notification
that the senate campaign fund
investigating committee will meet in
Chicago next Wednesday or Thursday
was received from Sen. Borah,
chairman, by William M. Butler,
chairman of the republican national
committee, today.

Following receipt of the telegram
from Borah, Butler declared that contributions
to the republican campaign
fund have totalled "approximately
\$1,095,000."

Potato Seedlings

Albert Lea, Minn., Oct. 13.—Davidson
Brothers, farmers living near London,
Freeborn county, have sent samples
of potato seedlings to a seed-house
of Waterloo, Ia. These seedlings
grew on the Davidson patch. They
are encased in a green berry
about twice the size of a ground cherry
and the seeds are said to be worth
several dollars a thimbleful. Almost
invariably potatoes are grown from
tuber cuttings, the seedlings being
practically unknown.

G. O. P. Rally at Wheaton

Wheaton, Minn., Oct. 13.—Gunnar
Bjornson, candidate for representative
from the seventh district on the
republican ticket, and Curtis Johnson,
spoke here to a large audience. The
Farmer-Labor party will have a political
rally here Oct. 14 with Magnus
Johnson as the topliner.

LOCAL NEWS NOTES

Items for this column will be gladly received. Telephone 74.

WEATHER

Minnesota—Fair tonight and Tuesday; colder tonight and in east portion Tuesday, probably light frost tonight.

Oct. 11. — Maximum 73, minimum 49. In evening 67. Southeast wind. Partly cloudy. Rain. Precipitation 0.06 in. Oct. 12. — Maximum 68, minimum 60. In evening 60. Northwest wind. Cloudy. Oct. 13. — Maximum 63, minimum 47. Southeast wind. Clear.

Wm. Molstad, of St. Paul, is spending a week visiting his parents, Mr. and Mrs. Jens Molstad.

The New Perfection Oil Heater can be carried from room to room with safety. Alderman-Maghan Company.

Anything and everything for the Ford, Woodhead night service.

Attorney D. B. McAlpine, of Iron-ton, was a Brainerd visitor today, en-route to St. Paul.

Take home a Brick of HAYDON Ice Cream

Miss Maggie Atherton motored to St. Cloud on Sunday, returning in the evening.

Lively's expert repair men are at your service day and night. Phone 76.

Did Firpo knock Dempsey through the ropes? See the pictures and see for yourself at the Lyceum Tuesday.

It pays to visit the Lyceum!

Harry Butler returned yesterday from Rochester, where he was in attendance at the hotelmen's convention.

New Perfection Oil Heaters in all finishes. Alderman-Maghan Company.

For the Kiddies—no treat like a dish of HAYDON Ice Cream. By the quart at nearly all dealers.

Eliminate all your oil stove troubles with Energize Kerosene.

H. D. Hoffman was a passenger to Atkin this afternoon, on business connected with the telephone company.

Step on it! There's not a chaperone in sight, see "Sporting Youth" Lyceum last time tonight.

Mrs. F. B. Desch, who was a week end guest of her friend, Mrs. Ed Day, returned to her home in St. Paul this afternoon.

Auto Electrical Service. Phone 11.

Imagine Thomas Meighan living again for the screen those old hammer-and-tong fighting days as the star in Curwood's "The Alaskan!" at the New Park tonight, Tuesday and Wednesday.

MEETING

Business & Professional Women's Club
Chamber of Commerce
Tuesday 7:30 P. M.

Mrs. M. D. Stoner, of Blackduck, and a former Brainerd resident, is visiting at the home of her daughter, Mrs. Archie Seymour.

Have you tried DeSMITTS' noon luncheon? It's just a little different.

See W. F. A. Woodcock's ad.

Mrs. A. U. Anderson returned today from Duluth, where she has been visiting at the home of her daughter, Mrs. George Stevenson.

Bring comfort into that bed room these cool nights with a Perfection Oil Heater. Alderman-Maghan Company.

After Dempsey had knocked Firpo down seven times in one round Firpo sent him through the ropes. Was he pushed? You can see in the pictures at the Lyceum Tuesday.

We only service Fords—night and day, Woodhead's.

Miss Irene Quinn, who spent the week end at the home of her parents, Mr. and Mrs. E. J. Quinn, returned to Northfield this afternoon where she is a student at Carlton college.

Any good dealer can supply you with Energize True Kerosene.

Oh, boy, that famous Dempsey-Firpo battle will be shown at the Lyceum Tuesday.

Cost just a little more but worth many times as much—the programs at the New Park. Read the ads.

For sale nice potatoes at 25 cents a bushel, four miles south and half mile west on the Thirteenth street road. Jacob Rosko Farm.

Lively's stock of Ford parts is complete in every detail. Open day and night.

To see the Dempsey-Firpo fight in the pictures is better than being at the ring side as the slow motion pictures gives ample time to study every blow, at the Lyceum Tuesday.

A report was circulated in Brainerd today that a man living near Longville was shot Saturday afternoon. The report could not be confirmed, however.

For prompt delivery on millwood, call 1156-R.

For dry millwood, call 1156-R.

Thomas Meighan in "The Alaskan" at the New Park tonight, Tuesday and Wednesday.

Ernest, eight-year son of Mr. and Mrs. John G. Haedersbeck, was operated on for appendicitis Saturday afternoon. The lad is at St. Joseph's hospital and is getting along nicely.

"Pick of the Pictures," New Park.

Why take a chance, there is always a good show at the New Park.

The authorized blue and white sign—tells you where Energize Kerosene is sold.

We have the following used cars: 1922 Ford coupe, a bargain; 1923 Star touring, like new; 1918 Ford touring, new top and paint. Cash or terms. Service Motor Co.

Strictly a Ford schedule is used in making our charges for repair work. You can charge it at Lively's.

Tremendously exciting—the best race picture I have ever seen! says Ralph DePalma, "Sporting Youth," at Lyceum last time tonight.

Lively's Ford repair department use only genuine Ford parts, sold at Ford prices.

Miss Alice Walker, daughter of Charles Walker, formerly of Brainerd, who has been a guest at the home of

"A Touch of Frost in the Air, But You Should Care"

Get out your winter things and send them here. And in a short time they will be returned to your home alive with style and well worthy of your wearing.

Folks who look into the future with a confident smile believe in our cleaning service. They dress better for less and our service they bless.

We call for and deliver.

Community singing, led by Miss Rickard.
Piano solo—Dorothy Moore.
Reading—Milton Nelson and Harriet Halvorsen.

Explanation of the proposed charter amendments—H. F. Michael.
Saxophone duet—Arden Miller and Rowland Jenkins.
Address—Rev. August Samuelson.
Vocal solo—Miss Rickard.

**IF SKIN BREAKS
OUT AND ITCHES
APPLY SULPHUR**

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles' Mentho-Sulphur at any drug store.—Adv

BIBLE STUDY

Four Month's Course to be Conducted by Rev. N. P. Olmsted at 1st Congregational Church

All who wish to understand the Bible better from the modern point of view, will be interested in the course in Old Testament Introduction, which is to be conducted by Rev. N. P. Olmsted at the First Congregational church on Tuesday evenings at 7:30 o'clock, beginning this week.

The course will continue for four months, and is open to all serious minded students of the Bible. The course will be constructive and non-controversial.

CAR COLLISION

Hupmobile Coupe Driven by Mrs. W. C. Cobb and Ford of Howard Daugherty Collided

A Hupmobile coupe driven by Mrs. W. C. Cobb and a Ford sedan driven by Howard Daugherty collided about eight o'clock Saturday evening at the intersection of Kingwood and North Fifth streets.

Mrs. Cobb is reported as driving down Fifth street without the lights turned on, and Mr. Daugherty did not see the car until it was upon him. One wheel, a fender and the lights on the Ford were badly damaged. The Hupmobile escaped without damage. No one was injured in the collision.

PARENT-TEACHERS MEETING
Washington-Lincoln Association to Give Program, With Community Singing as Opening Number

The Washington-Lincoln parent-teachers association will meet at 7:45 o'clock on Tuesday evening, October 14th. The following program will be rendered:

Community singing, led by Miss Rickard.
Piano solo—Dorothy Moore.
Reading—Milton Nelson and Harriet Halvorson.

Explanation of the proposed charter amendments—H. F. Michael.
Saxophone duet—Arden Miller and Rowland Jenkins.
Address—Rev. August Samuelson.
Vocal solo—Miss Rickard.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles' Mentho-Sulphur at any drug store.—Adv

BIBLE STUDY

Four Month's Course to be Conducted by Rev. N. P. Olmsted at 1st Congregational Church

All who wish to understand the Bible better from the modern point of view, will be interested in the course in Old Testament Introduction, which is to be conducted by Rev. N. P. Olmsted at the First Congregational church on Tuesday evenings at 7:30 o'clock, beginning this week.

The course will continue for four months, and is open to all serious minded students of the Bible. The course will be constructive and non-controversial.

CAR COLLISION

Hupmobile Coupe Driven by Mrs. W. C. Cobb and Ford of Howard Daugherty Collided

A Hupmobile coupe driven by Mrs. W. C. Cobb and a Ford sedan driven by Howard Daugherty collided about eight o'clock Saturday evening at the intersection of Kingwood and North Fifth streets.

Mrs. Cobb is reported as driving down Fifth street without the lights turned on, and Mr. Daugherty did not see the car until it was upon him. One wheel, a fender and the lights on the Ford were badly damaged. The Hupmobile escaped without damage. No one was injured in the collision.

ELKS HARVEST HOME DANCE

Public Cordially Invited to Function
Which Will be Held at Pavilion,
Lum Park

HEDSTROM 7 PIECE ORCHESTRA

Novel Decorations Are Now Being
Arranged For the
Pavilion

The Harvest Home dance of Brainerd Lodge No. 615 of the B. P. O. Elks will be given Friday evening, October 17, at the pavilion in Lum park. This will be the last dance in Lum park this season. Tickets are \$1 and the committee has already sold a large number to range people and others in Brainerd lodge jurisdiction.

Hedstrom's seven-piece orchestra has been engaged for the event and will furnish their sweetest and most enlivening music. In case of a cold snap, the pavilion will be electrically heated. A large crowd is anticipated as the funds raised will be devoted to a most worthy object, the convention fund of the lodge which next year will entertain 10,000 Elks in Brainerd jurisdiction.

The public is cordially invited to the dance. The committee will make every effort to have the dance one of the most successful in lodge annals. The committee has started decorating the pavilion in keeping with the harvest note and many novel effects will be witnessed next Friday night. The dance committee meets this evening at the pavilion.

DOUBLE-ENTRY IDEA OF WORLD'S HEALTH

Explanation of What Might Be Called Profit and Loss.

Virtually the dynamic address of Sir David C. Bruce before the British Association for the Advancement of Science in Toronto offers a double-entry account as between human health and modern civilization, in which the latter has both credits and debits.

Among the credits are bathtubs, saner living, shorter hours of work, serum safeguards against bacterial diseases, safe milk and water supplies, the X-ray and more efficient surgery. Among the debits are polished rice, whitened flour, tinned beef, tinned vegetables and the unrealized poisons incident to sewage disposal. Doctor Bruce, chairman of the governing board of the Lister Institute of Preventive Medicine, declared: "The untutored savage living on the natural fruits of the earth and the chase knows no deficiency disease."

Civilization, partly because of these debit items, has not been very successful in keeping down disease. According to Doctor Bruce, illness among insured working people in Britain represents idleness and economic loss equivalent to having 375,000 toilers out of work the year round. He figures the money loss there as \$750,000,000 a year and the loss in the United States at \$3,000,000,000 annually.

Science is discovering things all the time. We know something about the need of vitamins—what used to be called a "balanced diet" was an unconscious acknowledgment of their existence. We know something and may soon know more about the part that the glands play in human health and human growth. Most of us will agree with Sir David's conclusion: Medicine in future must change its strategy. Instead of awaiting attack it must assume the offensive. It must no longer be said, "the man was so sick that he had to call a doctor." But the philosopher will note that in this attitude of the "offensive" modernity will only be going back to Confucian common sense. The Chinaman pays a physician to keep him well and stops paying him if sickness comes. Psychologically that is a tremendous advantage.—Brooklyn Eagle.

Quite Capable

There is nothing sinful about having a reasonable pride in one's belongings and estate, but when a man has not the sense to keep his mouth shut about them he becomes a general nuisance.

A farmer of this order had met a few of his acquaintances on the market day, and, as usual, soon monopolized the whole of the conversation, talking about his steam thrasher, his reaping machine, his barns, his this and his that, until they were all heartily tired of listening to him. He was the first to go, however.

"Aye," says one of them, "and has ye a win'mill?"

"Na, that's what ah hae nae."

"Well, man, it's a pity ye had nae, for ye could blaw it yersel."—London Weekly Telegraph.

Young Blood!
Young Love!
Young Ideas!

"It is tremendously exciting. The best racing picture that I have ever seen!" says Ralph De Palma, noted auto racer.

Important Time Element

When James A. Garfield was president of Hiram college, a man brought up his son to be entered as a student. He wanted the boy to take a course shorter than the regular one. "My son can never take all those studies," said the father. "He wants to get

through more quickly. Can't you arrange it for him?"

"Oh, yes," said Mr. Garfield. "He can take a short course. It all depends on what you want to make of him. When God wants to make an oak, He takes a hundred years, but He takes only two months to make a squash."—Christian Register.

President Coolidge Congratulates Faithful Postal Employee for His Frustration of Attempted Robbery

President Coolidge's appreciation of the faithful service of postal employees was emphasized when Eugene Stack, youthful postal clerk, was summoned to Washington and rewarded and honored for his heroism in frustrating a mail robbery recently at East Orange, N. J.

This latest hero of the Government's army of civilian employees was given a reward of \$2,000, officially cited by the Post Office Department and then was taken by Postmaster General New to the White House where he was congratulated by President Coolidge. The President was keenly interested in Mr. Stack's heroic act, and listened attentively while the postal worker told how, after having been wounded by bandits, he shot and killed one of them and routed the other in protecting valuable registered mail. Mr. Stack was wounded twice. He has won expressions of admiration from the

entire postal service, as well as from many individuals throughout the country.

In presenting the reward in behalf of the government, and commending him for his bravery and faithful performance of his duty, Postmaster General New told Stack that the Army and Navy decorated their men for conspicuous acts of bravery, but the Post Office Department had no way of doing that other than to place in an employee's record a citation for such acts. The reward given Mr. Stack is the limit allowed by Congress, and Postmaster General New said he considered the citation of far greater value than the reward. The document, which was presented in the presence of postal and other government officials, cited Stack for conspicuous loyalty to the service in defending the mails at the peril of his life, and recorded the government's appreciation of his bravery.

Jail Breaker Re-Captured

Eau Claire, Wis., Oct. 13.—John Phillips, who sawed his way out of the Durand jail, where he was being held for theft, was recaptured in the woods on the Chippewa bottoms, 15 miles southwest of here, and is now back in his old cell.

RED WING MAN

ADDS EVIDENCE

William Henn Tells How Tanlac Restored His Health.

"Tanlac brought me back to health three years ago, and a bottle or two now and then has helped to keep me steady on the job ever since," is the matter-of-fact statement made recently by William Henn, 1440 Woodward St., Red Wing, Minn.

"For a year or more I was all run down from stomach trouble, and finally got in such a bad way I was unable to work. What I ate would lie like lead in the pit of my stomach, causing gas pains and bloating that made me miserable for hours. Headaches, dizzy spells, pains in my back and shoulders, a constant tired-out feeling and sleepless nights had just about finished me.

"But Tanlac made me feel like a new person, and now I eat, sleep and feel fine and can do as hard a day's work as I ever did. I wouldn't be without Tanlac in the house."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills, recommended by the manufacturers of TANLAC.

DOUBLE-ENTRY IDEA OF WORLD'S HEALTH

Explanation of What Might Be Called Profit and Loss.

Virtually the dynamic address of Sir David C. Bruce before the British Association for the Advancement of Science in Toronto offers a double-entry account as between human health and modern civilization, in which the latter has both credits and debits.

Among the credits are bathtubs, saner living, shorter hours of work, serum safeguards against bacterial diseases, safe milk and water supplies, the X-ray and more efficient surgery. Among the debits are polished rice, whitened flour, tinned beef, tinned vegetables and the unrealized poisons incident to sewage disposal. Doctor Bruce, chairman of the governing board of the Lister Institute of Preventive Medicine, declared: "The untutored savage living on the natural fruits of the earth and the chase knows no deficiency disease."

Civilization, partly because of these debit items, has not been very successful in keeping down disease. According to Doctor Bruce, illness among insured working people in Britain represents idleness and economic loss equivalent to having 375,000 toilers out of work the year round. He figures the money loss there as \$750,000,000 a year and the loss in the United States at \$3,000,000,000 annually.

Science is discovering things all the time. We know something about the need of vitamins—what used to be called a "balanced diet" was an unconscious acknowledgment of their existence. We know something and may soon know more about the part that the glands play in human health and human growth. Most of us will agree with Sir David's conclusion: Medicine in future must change its strategy. Instead of awaiting attack it must assume the offensive. It must no longer be said, "the man was so sick that he had to call a doctor." But the philosopher will note that in this attitude of the "offensive" modernity will only be going back to Confucian common sense. The Chinaman pays a physician to keep him well and stops paying him if sickness comes. Psychologically that is a tremendous advantage.—Brooklyn Eagle.

Quite Capable

There is nothing sinful about having a reasonable pride in one's belongings and estate, but when a man has not the sense to keep his mouth shut about them he becomes a general nuisance.

A farmer of this order had met a few of his acquaintances on the market day, and, as usual, soon monopolized the whole of the conversation, talking about his steam thrasher, his reaping machine, his barns, his this and his that, until they were all heartily tired of listening to him. He was the first to go, however.

"Aye," says one of them, "and has ye a winnill?"

"Na, that's what ah hae nae."

"Well, man, it's a pity ye had nae, for ye could blaw it yersel!"—London Weekly Telegraph.

Important Time Element

When James A. Garfield was president of Hiram college, a man brought up his son to be entered as a student. He wanted the boy to take a course shorter than the regular one. "My son can never take all those studies," said the father. "He wants to get

through more quickly. Can't you arrange it for him?"

"Oh, yes," said Mr. Garfield. "He can take a short course. It all depends on what you want to make of him. When God wants to make an oak, He takes a hundred years, but He takes only two months to make a squash."—Christian Register.

President Coolidge Congratulates Faithful Postal Employee for His Frustration of Attempted Robbery

President Coolidge's appreciation of the faithful service of postal employees was emphasized when Eugene Stack, youthful postal clerk, was summoned to Washington and rewarded and honored for his heroism in frustrating a mail robbery recently at East Orange, N. J.

This latest hero of the Government's army of civilian employees was given a reward of \$2,000, officially cited by the Post Office Department and then was taken by Postmaster General New to the White House where he was congratulated by President Coolidge. The President was keenly interested in Mr. Stack's heroic act, and listened attentively while the postal worker told how, after having been wounded by bandits, he shot and killed one of them and routed the other in protecting valuable registered mail. Mr. Stack was wounded twice. He has won expressions of admiration from the

entire postal service, as well as from many individuals throughout the country.

In presenting the reward in behalf of the government, and commending him for his bravery and faithful performance of his duty, Postmaster General New told Stack that the Army and Navy decorated their men for conspicuous acts of bravery, but the Post Office Department had no way of doing that other than to place in an employee's record a citation for such acts. The reward given Mr. Stack is the limit allowed by Congress, and Postmaster General New said he considered the citation of far greater value than the reward. The document, which was presented in the presence of postal and other government officials, cited Stack for conspicuous loyalty to the service in defending the mails at the peril of his life, and recorded the government's appreciation of his bravery.

Jail Breaker Re-Captured

Eau Claire, Wis., Oct. 13.—John Phillips, who saved his way out of the Durand jail, where he was being held for theft, was recaptured in the woods on the Chippewa bottoms, 15 miles southwest of here, and is now back in his old cell.

RED WING MAN

ADDS EVIDENCE

William Henn Tells How Tanlac Restored His Health.

"Tanalac brought me back to health three years ago, and a bottle or two now and then has helped to keep me steady on the job ever since," is the matter-of-fact statement made recently by William Henn, 1440 Norwood St., Red Wing, Minn.

"For a year or more I was all run down from stomach trouble, and finally got in such a bad way I was unable to work. What I ate would lie like lead in the pit of my stomach, causing gas pains and bloating that made me miserable for hours. Headaches, dizzy spells, pains in my back and shoulders, a constant tired-out feeling and sleepless nights had just about finished me.

"But Tanlac made me feel like a new person, and now I eat, sleep and feel fine and can do as hard a day's work as I ever did. I wouldn't be without Tanlac in the house."

Tanalac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanalac Vegetable Pills, recommended by the manufacturers of TANLAC.

REPUBLICANS PAY BILLS

It is as true as it ever was that while Democratic administrations incur debts, Republican administrations pay them. Accepting the fact that the government owed \$34,000,000,000 as the heritage of the war and a Democratic administration, the Harding regime, in traditional fashion, set about to pay that debt. One of the first steps was the re-establishment of an economical rule by enactment of a budget law and the reorganization of Congress' methods of handling appropriation bills.

Not only has the machinery of Congress been coordinated with the machinery of the budget bureau, but Congress observes the spirit of the budget system quite as closely as it does the letter. This fact was stated by Director Lord of the budget bureau at the semi-annual meeting of executives, June 30, as follows:

"That there has been a meeting of minds of the budget authorities and Congress is clearly shown by a comparison of estimates and appropriations. In the estimates prepared for the fiscal year 1922, the last annual estimate prepared free from budget control, the executive agencies asked for \$1,312,925,813 more than Congress gave. Estimates for the fiscal year 1923, the first under budget control, were \$162,523,008 more than the resulting appropriations. For the fiscal year 1924 the estimates exceeded appropriations by only \$7,828,198. Again this year Congress practically ratified the budget, the excess of estimates over appropriations being but \$10,047,095. In a budget totalling \$3,622,125,959 this result is extraordinary."

THE DRIFT TO THE CITIES

At the birth of the American nation its largest city had not more than 43,000 inhabitants and only one person out of 30 lived in the six towns of 8,000 or more inhabitants.

In 1800, continues Current History Magazine, there were in the United States only six cities whose population was over 8,000 and these contained only 4 per cent of the population of the entire country. In 1900 there were 547 such cities, which at this time contained 32.9 per cent of the country's population.

But in 1920 the number of such cities had increased to 924 and contained 43.8 per cent of the total population. Today nearly one-half of the American population lives in places of over 2,500 inhabitants, a tenth in villages and hardly more than two-fifths in the open country.

The adoption of "Pittsburgh-plus" elimination will tend further, we think, to build up the small cities. With the extension of electric power, carried where needed, huge factories can easily secure power and the readjustment of freight rates made possible by elimination of "Pittsburgh-plus" will do much to equalize opportunity irrespective of location. We see where large growth is assured small towns, and where the previous trend to the metropolis is in a way checked.

Automobiles, telephone, radio, rural delivery, all are working to reduce isolation in the purely rural community. There will soon be no such thing as "Lonesomeville."

URGING PEONY CULTURE IN BRAINERD

THE recent shipment of peonies is being sacked and labeled and the distribution will be completed tomorrow. All who have subscribed for peonies should call at Turcotte Brothers and get them quickly.

There may be a few lots extra and if those who had asked for them after the orders were taken will telephone Turcotte Brothers, they can inform them as to the possibility of their getting them.

The modest price asked for these peony lots was only made possible through the fact that the Rotary club committees did much corresponding and found some nurseries that were overstocked. Then the parent-teachers associations and others did the selling without cost. All other work was given free, such as labeling, assembling, and the Rotary club stood the incidental expense such as expressage, etc.

When one pays 50c, 75c and \$1 for common varieties one is paying a reasonable figure. In buying a Rotary package of four bulbs for \$1, one gets a large accumulation of goodwill and service.

It will not be necessary, next year, to continue this peony campaign, as the city will have been educated to the value of peonies. Florists of the city can then well continue the work which this year started as a purely civic undertaking.

DAWES PLAN FOR NEAR EAST

THE Dawes plan has saved the peace of Europe; can a similar plan be found for insuring peace in the Near East? This question is being asked in twenty countries by the International Near East Association.

Recommendations will be asked in America through the Near East Relief, whose part in reconstruction of Near Eastern countries is declared to have been super-governmental.

THAT silver foxes are valuable animals, is noted in the suit for \$9,000 damages filed in St. Cloud, it being alleged that five Albany and Holding men caused the death of three such animals. The plaintiffs allege each of the animals was worth \$1,000, and that because they were kept for purposes of propagation, the loss is three times the actual value of the foxes.

THE world series is barely out of the way on the front page, when the Shenandoah and the ZR-3 take its place, riding neck and neck with the pre-election news.

DESPITE the heavy frosts Brainerd experienced on two or more occasions, some people are still picking strawberries from their plants.

KISSING has been banned by the Bolsheviks and a fine imposed on swearing.

Officer Would Stick Until Morning Anyway

A harrowing, yet amusing, tale of an exciting voyage is told by Sergt. W. B. Bench in the Leatherneck, the journal of the marines. Sergeant Bench was a member of a detachment that returned from the Philippine islands on the Grant some time ago.

A few days out of Nagasaki, he writes, we ran into a typhoon and about the midnight of that night we were shippin' 'em green at every plunge. But for a technicality we would have drawn diving pay! We had lost our wireless, and our screw was grinding halfway out of water, when an exceptionally heavy sea struck us amidships and battered in the bulkhead door of the forward compartment. In the roll that followed everything movable including rifles, sea bags, marines and several fathoms of chain wrapped itself round my neck, but that trilling impediment did not keep me from leading the rush for top side. Just then, however, in came several tons of water through the battered door, and things began to look serious.

One of the stewards went after the first officer, who was unknown to most of us. In a few minutes the officer appeared at the head of the gangway with a plank under his arm. One young marine who had never been through such an experience before turned pale as a dreadful suspicion entered his mind. The officer was carrying a plank; planks float; therefore the officer was going to quit the ship! A bunch of helpless marines, women and children were to be left to the mercy of the waves. It was no time to stand on ceremony.

"Hey, mister!" the little fellow piped out in a quavering voice. "Yuh ain't a-goin' to leave us, are you?"

The officer glared and then grinned—for the first time in years, according to the steward—and said: "Well, I guess I'll stay with you until morning anyway, son." Then he proceeded to bar up the door with his plank.—Youth's Companion.

Fiery Fountain Attracts

In the scientific section at the British empire exhibition is a fiery fountain. Issuing from a rock is a stream of water, flowing in a graceful curve onto a glass flower, and thence overflowing into a mossy pool, says London Tit-Bits. As the stream of water touches the flower it appears to catch fire, and the flower is illuminated. As you look the color changes from fiery white to fiery red, then from fiery red to vivid green, but the water that flows over the flower is colorless. As it falls onto the bank below it again shows a brilliant iridescence.

The exhibit was prepared by the Manchester College of Technology and a good deal of work and a great number of experiments were made to bring the device to perfection. It is exciting much comment.

Was Infant Shakespeare

A life of "Rimbaud, the Boy and the Poet," has been written by Edgell Rickword. Kents and Shelley were, by our reckoning, youths when their work ended, the New Statesman says. Rimbaud was still, by any reckoning, a boy when his ended; after his eighteenth year he wrote no more verse, after his nineteenth no more prose. But not because he died, like his English brothers; he became a vagabond, then overseer of a quarry in Cyprus, then a merchant in Abyssinia. Here is an enigma that continues to fascinate, because everything indicates that Rimbaud was potentially the greatest force appearing in French literature in modern times, and that Victor Hugo had insight when he said, "C'est Shakespeare enfant."

Veteran Baker

Carl L. Weber of Marshall, Mich., asserts he is the oldest baker in the United States. He is ninety. He learned the baker's trade at the age of ten in Germany. In 1866 he came to Marshall and for two years worked for a railroad company. In 1868 he started in the bakery of John L. Evans and for 56 consecutive years he has labored in the same shop, working more than ten hours each day. In the 56 years he has had no vacation and only six weeks off on account of illness.—Indianapolis News.

Canada Protects Forests

Canada this year will spend about \$15,000,000 in protection against forest fires and the management of forest reserves. In the detection of fires, in areas where the most valuable stands of timber are located, royal Canadian air forces are to be employed. Planes will patrol the forest sections of the Rocky mountains, and wireless apparatus, which has proved effective in the West in establishing communication between ground fire ranges and airplanes, will be installed in the East.

Changing His Mind

"You know Lefe Dopp, who was married last week to a widow lady with seven children, don't you?" asked Tobe Sagg, of Sandy Mush.

"Lef see!" returned Jig Fiddlin, who was lounging in the crossroads store. "He's a Free Thinker, ain't he?"

"He was; didn't believe in hell, nor nuth'n' that-a-way. But he's already begun to change his mind."—Kansas City Star.

To Work Mine Long Idle

Five hundred men are building roads, cleaning up old shafts and sinking new ones in the "El Triunfo" group of mines, in Lower California, that have been idle 15 years.

HOW GREAT MEN MAKE LOVE

AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(© by Wheeler Syndicate, Inc.)

WM. H. PRESCOTT AND SUSAN PRESCOTT

WHEN a young man named William H. Prescott graduated from Harvard in 1814, a fellow law student in a boisterous mood threw a hard piece of bread at random. The fall of that utterly trivial object was responsible for creating one of the world's most celebrated historians. The piece of bread struck Prescott in one eye and strangely enough blinded it. Soon the other eye became affected and Prescott thereafter spent his life in total blindness, his vision being so weak that he could read for only a few moments at a time, if at all.

The usual careers being closed to him through his infirmity, Prescott decided upon being a historian. The work that he accomplished is a monument erected to indomitable will, cheerful courage and unflinching perseverance. Historical research is the most difficult of all literary work; one must wade through literally tons of books and manuscripts; one must travel exhaustively, seek and ferret, generally act the literary detective and finally compose the work from a vast accumulation of notes. All this was done practically by this blind man. His "History of the Reign of Ferdinand and Isabella the Catholic," in three volumes, achieved instant fame when it was published, gaining for the author membership in the Royal Academy of History of Madrid. Other historical works followed and assured Prescott a niche in the world's hall of fame.

Prescott's method of work is interesting. He employed secretaries who read to him from the books and manuscripts he consulted. As the secretary read, Prescott stopped him frequently and dictated notes. When the time came for writing, the author would ask his assistant to read to him all the notes compiled for a chapter. Prescott would then memorize the substance of these notes and outline the chapter in his mind. This was followed by at least half a dozen mental rehearsals of this outline, after which he wrote out the chapter in detail. This writing was done by aid of a special appliance. A frame with wire cross rules was laid over a sheet of writing paper; underneath this sheet was a carbon and under the carbon another sheet. With a bone stylus Prescott wrote over the frame, the wires acting as guides and spaces; no writing was, of course, visible on the upper sheet, the carbon copy being the manuscript. This system carried with it many annoyances; often after Prescott had laboriously written a page, he found that he had forgotten to insert the undersheet, thus wasting time and, what was more important, the trend of thought.

The following graceful and loving letter was written by Prescott to his wife from Antwerp, where he had gone in the course of his researches:

"Dear Susan, I never see anything beautiful in nature or art, or hear heart-stirring music in the churches, the only place where music does stir my heart, without thinking of you, and wishing you could be by my side, if only for a moment."

May Reproduce Old Mill

The Philadelphia chapter of the Society of Colonial Dames of America has submitted to many organizations in Pennsylvania a plan to erect on the original site a replica of "The Old Swedes Mill," the first mechanical enterprise to be set up in that highly industrialized region, says the Interpreter. The original structure was built by direction of Governor Printz, in 1646, eight years after the first Swedish colonists arrived there. The stream on which the old mill stood, now known as Cobb's creek, flows through what is now the southwestern outskirts of Philadelphia. The proposed reproduction will be made a gift to the municipality.

With Pleasure!

Once when Mr. Tim Healy, governor general of the Irish Free State, was in Spain, he met Kipling, who, according to Mr. Healy, does not like him for political reasons. What happened at the meeting is told by the great Irishman himself:

"Kipling," I said, "I suppose we can shake hands on neutral soil, although I would shake hands with you anywhere."

"Haven't they shot you yet?" asked Kipling.

"No, but when they do shoot me," I replied, "I would like you to write a dirge about me."

"I'll be delighted," said Kipling."

Discover Oil in France

A sample from a boring near Sundhausen, 20 or 25 miles south of Strasbourg, France, has been confirmed as petroliferous upon analysis by representatives of the University of Strasbourg and the ministry of public works. The well was drilled last February to provide water for farm use; the oily content appeared at the depth of five meters and persisted as the drilling was carried deeper. Means for exploitation are now being considered. The only petroleum source of any importance in France at present is the Pechelbronn field, north of Strasbourg.

Egypt Protects Buyers

To protect local buyers of goods against misrepresentation in the length of cotton goods a government regulation in Egypt requires that all goods be folded in lengths of one meter or yard.

TO DARKEN HAIR

APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.—Advt.

Officer Would Stick Until Morning Anyhow

A harrowing, yet amusing, tale of an exciting voyage is told by Sergt. W. B. Beach in the Leatherneck, the journal of the marines. Sergeant Beach was a member of a detachment that returned from the Philippine islands on the Grant some time ago.

A few days out of Nagasaki, he writes, we ran into a typhoon and about the midnight of that night we were shippin' 'em green at every plunge. But for a technicality we would have drawn diving pay! We had lost our wireless, and our screw was grinding halfway out of water, when an exceptionally heavy sea struck us amidships and battered in the bulkhead door of the forward companionway. In the roll that followed everything movable including rifles, sea bags, marines and several fathoms of chain wrapped itself round my neck, but that trifling impediment did not keep me from leading the rush for top side. Just then, however, in came several tons of water through the battered door, and things began to look serious.

One of the stewards went after the first officer, who was unknown to most of us. In a few minutes the officer appeared at the head of the gangway with a plank under his arm. One young marine who had never been through such an experience before turned pale as a dreadful suspicion entered his mind. The officer was carrying a plank; planks float; therefore the officer was going to quit the ship! A bunch of helpless marines, women and children were to be left to the mercy of the waves. It was no time to stand on ceremony.

"Hey, mister!" the little fellow piped out in a quivering voice. "Yuh ain't a-goin' to leave us, are you?"

The officer glared and then grinned—for the first time in years, according to the steward—and said: "Well, I guess I'll stay with you until morning anyway, son." Then he proceeded to har up the door with his plank.—Youth's Companion.

Fiery Fountain Attracts

In the scientific section at the British empire exhibition is a fiery fountain. Issuing from a rock is a stream of water, flowing in a graceful curve onto a glass flower, and thence overflowing into a mossy pool, says London Tit-Bits. As the stream of water touches the flower it appears to catch fire, and the flower is illuminated. As you look the color changes from fiery white to fiery red, then from fiery red to vivid green, but the water that flows over the flower is colorless. As it falls onto the bank below it again shows a brilliant iridescence.

The exhibit was prepared by the Manchester College of Technology and a good deal of work and a great number of experiments were made to bring the device to perfection. It is exciting much comment.

Was Infant Shakespeare

A life of "Rimbaud, the Boy and the Poet," has been written by Edgell Rickword. Keats and Shelley were, by our reckoning, youths when their work ended, the New Statesman says. Rimbaud was still, by any reckoning, a boy when his ended; after his eighteenth year he wrote no more verse, after his nineteenth no more prose. But not because he died, like his English brothers; he became a vagabond, then overseer of a quarry in Cyprus, then a merchant in Abyssinia. Here is an enigma that continues to fascinate, because everything indicates that Rimbaud was potentially the greatest force appearing in French literature in modern times, and that Victor Hugo had insight when he said, "C'est Shakespeare enfant."

Veteran Baker

Carl L. Weber of Marshall, Mich., asserts he is the oldest baker in the United States. He is ninety. He learned the baker's trade at the age of ten in Germany. In 1866 he came to Marshall and for two years baked for a railroad company. In 1868 he started in the bakery of John L. Evans and for 56 consecutive years he has labored in the same shop, working more than ten hours each day. In the 56 years he has had no vacation and only six weeks off on account of illness.—Indianapolis News.

Canada Protects Forests

Canada this year will spend about \$15,000,000 in protection against forest fires and the management of forest reserves. In the detection of fires, in areas where the most valuable stands of timber are located, royal Canadian air forces are to be employed. Planes will patrol the forest sections of the Rocky mountains, and wireless apparatus, which has proved effective in the West in establishing communication between ground fire ranges and airplanes, will be installed in the East.

Changing His Mind

"You know Late Dopp, who was married last week to a widow lady with seven children, don't you?" asked Tobe Sagg, of Sandy Mush.
"Lez see!" returned Jig Fiddlin, who was lounging in the crossroads store. "He's a Free Thinker, ain't he?"
"He was; didn't believe in hell, nor nuth'n' that-a-way. But he's already begun to change his mind."—Kansas City Star.

Five hundred men are building roads, cleaning up old shafts and sinking new ones in the "El Triunfo" group of mines, in Lower California, that have been idle 15 years.

HOW GREAT MEN

MAKE LOVE

AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(© by Wheeler Syndicate, Inc.)

WM. H. PRESCOTT AND SUSAN PRESCOTT

WHEN a young man named William Hickling Prescott graduated from Harvard in 1814, a fellow law student in a boisterous mood threw a hard piece of bread at random. The fall of that utterly trivial object was responsible for creating one of the world's most celebrated historians. The piece of bread struck Prescott in one eye and strangely enough blinded it. Soon the other eye became affected and Prescott thereafter spent his life in total blindness, his vision being so weak that he could read for only a few moments at a time, if at all.

The usual careers being closed to him through his infirmity, Prescott decided upon being a historian. The work that he accomplished is a monument erected to indomitable will, cheerful courage and unflinching perseverance. Historical research is the most difficult of all literary work; one must wade through literally tons of books and manuscripts; one must travel exhaustively, seek and ferret, generally act the literary detective and finally compose the work from a vast accumulation of notes. All this was done practically by this blind man. His "History of the Reign of Ferdinand and Isabella the Catholic," in three volumes, achieved instant fame when it was published, gaining for the author membership in the Royal Academy of History of Madrid. Other historical works followed and assured Prescott a niche in the world's hall of fame.

Prescott's method of work is interesting. He employed secretaries who read to him from the books and manuscripts he consulted. As the secretary read, Prescott stopped him frequently and dictated notes. When the time came for writing, the author would ask his assistant to read to him all the notes compiled for a chapter. Prescott would then memorize the substance of these notes and outline the chapter in his mind. This was followed by at least half a dozen mental rehearsals of this outline, after which he wrote out the chapter in detail. This writing was done by aid of a special appliance. A frame with wire cross rules was laid over a sheet of writing paper; underneath this sheet was a carbon and under the carbon another sheet. With a bone stylus Prescott wrote over the frame, the wires acting as guides and spaces; no writing was, of course, visible on the upper sheet, the carbon copy being the manuscript. This system carried with it many annoyances; often after Prescott had laboriously written a page, he found that he had forgotten to insert the undersheet, thus wasting time and, what was more important, the trend of thought.

The following graceful and loving letter was written by Prescott to his wife from Antwerp, where he had gone in the course of his researches:

"Dear Susan, I never see anything beautiful in nature or art, or hear heart-stirring music in the churches, the only place where music does stir my heart, without thinking of you and wishing you could be by my side, if only for a moment."

May Reproduce Old Mill

The Philadelphia chapter of the Society of Colonial Dames of America has submitted to many organizations in Pennsylvania a plan to erect on the original site a replica of "The Old Swedes Mill," the first mechanical enterprise to be set up in that highly industrialized region, says the Interpreter. The original structure was built by direction of Governor Printz, in 1646, eight years after the first Swedish colonists arrived there. The stream on which the old mill stood, now known as Coble's creek, flows through what is now the southwestern outskirts of Philadelphia. The proposed reproduction will be made a gift to the municipality.

With Pleasure!

Once when Mr. Tim Healy, governor general of the Irish Free State, was in Spain, he met Kipling, who, according to Mr. Healy, does not like him for political reasons. What happened at the meeting is told by the great Irishman himself:

"Kipling, I said, 'I suppose we can shake hands on neutral soil, although I would shake hands with you anywhere.'"

"Haven't they shot you yet?" asked Kipling.

"No, but when they do shoot me," I replied, "I would like you to write a digue about me."

"I'll be delighted," said Kipling."

Discover Oil in France

A sample from a boring near Sundhausen, 20 or 25 miles south of Strasbourg, France, has been confirmed as petroliferous upon analysis by representatives of the University of Strasbourg and the ministry of public works. The well was drilled last February to provide water for farm use; the oily content appeared at the depth of five meters and persisted as the drilling was carried deeper. Means for exploitation are now being considered. The only petroleum source of any importance in France at present is the Pechelbronn field, north of Strasbourg.

To protect local buyers of goods against misrepresentation in the length of cotton goods a government regulation in Egypt requires that all goods be folded in lengths of one meter or yard.

TO DARKEN HAIR

APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.—Advt.

SEEING STARS
IN FALL SKIES,
MANY METEORS

GREAT NEBULA IN ANDROMEDA
SEEN WITH TELESCOPE

IN THE EAST THE PLEIADES AND
HYADES IN TAURUS

(By United Press)
Washington, Oct. 13.—This is the time of year when the "star gazer" is right in his element, for October and November are two good months to look at the stars, November being the month of meteors.

During October the Great Nebula in Andromeda can be seen without the aid of a telescope, says a bulletin from the American Nature Association. You will recognize in the East in November old acquaintances in the Pleiades and Hyades in Taurus, and Aldebaran, the fiery-red eye of the Bull.

November was known in ancient times as the Pleiad month and it was then the ancient Kings of Persia never failed to grant any request presented to them on November 17, the day when the Pleiades came to the meridian at midnight. This exquisite little group, with five stars forming a little dipper, and two additional stars visible to keen eyes, will be one of the most noted groups in the heavens. The V-shaped cluster of the Hyades is scarcely less famous.

With the visit of Mars this summer, when it was only 34,000,000 miles away, and nearer than it had been in a century, a remarkable impetus has been given "star gazing." Reports of a new comet discovered by the Bonn Observatory recall the visit of Halley's Comet in 1910.

In November every year several meteor swarms are due. The Leonids, so-called because they come from the general direction of the constellation Leo, appear about November 15, but you will have to be up before sunrise to see them, because Leo is then in the morning sky.

The Andromedes, which will appear to come from the direction of Andromeda, will appear in the evening hours, however, about November 23 or 24. Then there are the Taurids, several different groups appearing at different times during the month from different points in Taurus. These also will appear in the evening hours from the direction of Taurus, nearly due east. An occasional fire-ball, which is simply a meteor of exceptional size or brilliancy that may succeed in reaching the earth's surface, has been known to appear among the Taurids.

The object that will probably first catch the eye November evenings will be the straggling W in Cassiopeia in the northern heavens high above the pole. You will probably search in vain for the Big Dipper for it is so close to the horizon in November that it is largely concealed from view. Possibly you will be able to make out the outlines of the Little Dipper, though, with the North Star, Polaris, at the end of the handle.

Next to Cassiopeia, the Great Square in Pegasus with the constellation of Andromeda joining it on the east, is one of the most noticeable of the Fall groups. It now lies directly on the meridian due south of the zenith overhead. To the southwest of the Great Square lies Aquarius, The Water-Bearer, which can be distinguished by the Y-shaped group of stars, the urn from which a stream of faint stars is flowing toward the south and southeast.

Mars, still in Aquarius where it has been for many months, will move rapidly eastward during November and recede from the earth. In October Mars is the only one of the bright planets to be seen. You must get up before sunrise to see Venus, which is glorious at that time.

"Healing" Powers of Flowers
Some quaint superstitions still linger around many of the common flowers in rural parts of England.

Groundsel is said to be a certain cure for toothache, but the root must be dug up with an implement having no iron in it, and the aching tooth is then touched five times with the root.

The juice of the red flower of valerian is a cure for splinters in the flesh, while fennel flowers will heal broken bones, or, if they need to be glued together, the roots of Solomon's seal, ground up and drunk in ale, will do the trick.

Eyebright is believed to be infallible for treating all eye troubles, especially falling eyesight, the rumals pointing out that birds and animals never suffered from bad eyes because they peck at the eyebright.

POULTRY

ROASTING CHICKENS
FINISHED ON MILK

Much of the poultry sold to the consuming public is in an unfinished condition. Fleshing or fattening puts weight onto the birds, improves the flavor, causes the muscles to become tender and the bones brittle. Theoretically the fat is distributed between the muscle fibers in a way similar to the marbling in roasts and steaks. In the roasting method of cooking poultry, the fat assists in shortening the time of cooking. This may be contrasted with the lean bird which requires longer cooking and from which the water evaporates, leaving the bird in a dry and tough condition.

Most milk feeding of roasting chickens by the producer is done in the fall when the weather is cool and the birds can better stand confinement. The time just preceding Thanksgiving and Christmas is most desirable. Young birds weighing from 3½ to 4½ pounds are about the right weight for fall feeding. Broiler fleshing is done in the spring when the birds weigh about one-half pound less than the market demand, which is normally two pounds.

Two common methods of feeding are pen and crate fattening. For farm purposes pen fattening will be satisfactory because no special equipment is needed. The birds are confined to a limited coop area where they will get little or no exercise. The lack of exercise helps to make the bird tender.

Purdue university has found the following ration and method of feeding quite satisfactory:

Two pounds ground corn
One pound ground whole oats
One pound four middlings
Eight pounds liquid buttermilk.

This is mixed at the feeding prior to the one it is to be fed. When fed, it should pour and be of a thick cream of pancake-batter consistency.

The birds should receive no feed for 24 hours previous to their first milk feeding. This is done in order to free the intestines from feed and to get the birds hungry. Thereafter they should be fed in troughs twice a day, early in the morning and late in the afternoon. From 10 to 14 days is the usual length of time for feeding. For the first three or four days until they are "on feed," the feed should be in front of them for only 10 minutes; for the next three or four days, 15 minutes, and for the last days, 20 minutes. The birds should be hungry at each feeding. If they are not hungry at each feeding, that feeding should be withheld.

Only in very hot weather should anything other than the two regular feedings be given. At such a time the birds may have a very thin mixture of the ration given at noon.—L. H. Schwartz, Purdue University.

Summer Hardest Season
to Produce Good Eggs

Summer is the hardest season in which to produce quality eggs and for that reason a producer of such should have very little trouble getting a few cents more per dozen. It really costs no more to produce a good egg than a poor one, though it is perhaps a little more work.

The first thing to do when producing quality eggs is to dispose of the roosters. This is the greatest trouble with summer egg production. The egg starts to incubate and then the embryo dies leaving the egg unfit for food. The second thing to do is to never neglect gathering the eggs twice a day.

The third thing to do is to keep the eggs in a cool cellar or cave. They should never be kept in a musty place as an egg will take up odors as quickly as milk. By following these three rules you will not find it difficult to produce eggs that will be a credit to the producer.

Poultry Notes

Keep grain before all the stock.

Select best pullets and give good care.

Keep young chicks moving on to new ground. It prevents coccidiosis.

Pullets that are small for their age and apparently lacking in vigor are seldom profitable.

It pays to watch the development of the pullets and if they seem to be maturing too rapidly you can take away the mash and feed only scratch grain.

It pays to cull the pullets. Many flocks are reduced in vigor because every pullet that is pure bred is held over.

Crowding in the houses overheats the birds at night. When they come out on the cool ground in the morning there is a danger of taking cold.

Every farmer who markets eggs can help to establish confidence in eggs as a palatable, tasteful food by collecting his eggs daily and marketing them at least twice a week.

Hair-Net Industry in
China Is Extensive

The hair-net business in China has had quite a history. It was established originally by Germans, who imported the nets from Chefoo into Germany and then exported them to the United States as European-made hair nets. There is still considerable export of human-hair nets from China to European countries.

When direct trade in human-hair nets was taken up with China, large quantities of imperfect, under-sized, and generally poor nets were exported. This finally resulted in the establishment in Chefoo and Tsinan, by the foreign and a few larger Chinese exporters, of hair-net inspection factories, some employing as many as 1,000 operatives, where hair-net cargoes are inspected and, if necessary, the nets repaired before being shipped.

The net-making itself is a home or "cottage" industry; the hair is distributed around in the various villages—in the hinterland of Chefoo and in the region of the Shantung railway—and the nets usually pass through the hands of several Chinese middlemen before they are offered by the Chinese dealers to exporters.

There is still considerable export of human-hair nets from China to European countries.

When direct trade in human-hair nets was taken up with China, large quantities of imperfect, under-sized, and generally poor nets were exported. This finally resulted in the establishment in Chefoo and Tsinan, by the foreign and a few larger Chinese exporters, of hair-net inspection factories, some employing as many as 1,000 operatives, where hair-net cargoes are inspected and, if necessary, the nets repaired before being shipped.

The net-making itself is a home or "cottage" industry; the hair is distributed around in the various villages—in the hinterland of Chefoo and in the region of the Shantung railway—and the nets usually pass through the hands of several Chinese middlemen before they are offered by the Chinese dealers to exporters.

A Romance of the Spanish Main

CAPTAIN BLOOD

By RAFAEL SABATINI

Copyrighted, 1923, by Rafael Sabatini.

"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

CHAPTER XXVIII—Continued

"You are no longer that," she said, and strove to smile.

"Yet I owe no thanks to you that I am not," he answered. "I think there's no more to be said, unless it be to add the assurance that Lord Julian Wade has also nothing to apprehend from me. That, no doubt, will be the assurance that your peace of mind requires?"

"For your own sake—yes. But for your own sake only. I would not have you do anything mean or dishonouring."

"Thief and pirate though I be?" She clenched her hand, and made a little gesture of despair and impatience.

"Will you never forgive me those words?"

"I'm finding it a trifle hard, I confess. But what does it matter, when all is said?"

Her clear hazel eyes considered him a moment wistfully. Then she put out her hand again.

"I am going, Captain Blood. Since you are so generous to my uncle, I shall be returning to Barbadoes with him. We are not like to meet again—ever. Is it impossible that we should part friends? Once I wronged you, I know. And I have said that I am sorry. Won't you . . . won't you say 'good-bye'?"

He took the hand she proffered. Retaining it, he spoke, his eyes sombrely, wistfully considering her.

"You are returning to Barbadoes?" he said slowly. "Will Lord Julian be going with you?"

"Why do you ask me that?" she confronted him quite fearlessly.

"Sure, now, didn't he give you my message, or did he bungle it?"

"No. He didn't bungle it. He gave it me in your own words. It touched me very deeply. It made me see clearly my error and my injustice. I owe it to you that I should say this by way of amend. I judged too harshly where it was a presumption to judge at all."

He was still holding her hand.

"And Lord Julian, then?" he asked, his eyes watching her, bright as sapphires in the copper-coloured face.

"Lord Julian will no doubt be going home to England. There is nothing more for him to do out here."

"But didn't he ask you to go with him?"

"He did. I forgive you the impertinence."

A wild hope leapt to life within him.

"And you? Glory be, ye'll not be telling me ye refused to become my lady, when . . ."

"Oh! You are insufferable!" She tore her hand free and backed away from him. "I should not have come . . . Good-bye!" She was speeding to the door.

He sprang after her, and caught her. Her face flamed, and her eyes stabbed him like daggers. "These are pirate's ways, I think! Release me!"

"Arabella!" he cried on a note of pleading. "Are ye meaning it? Must I release ye? Must I let ye go and never set eyes on ye again? Or will ye stay and make this exile endurable until we can go home together? Ooh, ye're crying now! What have I said to make ye cry, my dear?"

"I . . . I thought you'd never say it," she mocked him through her tears. "There was never, never anybody but you, Peter."

Governor Blood forgot the duties of his office. He had reached home at last. His odyssey was ended.

They had, of course, a deal to say thereafter, so much, indeed, that they sat down to say it, whilst time sped on, and Governor Blood forgot the duties of his office. He had reached home at last. His odyssey was ended.

And meanwhile Colonel Bishop's fleet had come to anchor, and the Colonel had landed on the mole, a disgruntled man to be disgruntled further yet. He was accompanied ashore by Lord Julian Wade.

A corporal's guard was drawn up to receive him, and in advance of this stood Major Mallard and two others who were unknown to the Deputy-Governor: one slight and elegant, the other big and brawny.

Major Mallard advanced. "Colonel Bishop, I have orders to arrest you. Your sword, sir!"

Bishop stared, empurpling. "What the devil? Arrest me, d'ye say? Arrest me?"

"By order of the Governor of Jamaica," said the elegant little man behind Major Mallard, Bishop swung to him.

"The Governor? You're mad!" He

looked from one to the other. "I am the Governor."

"You were," said the little man dryly. "But we've changed that in your absence. You're broke for abandoning your post without due cause and therefore imperilling the settlement over which you had charge. It's a serious matter, Colonel Bishop, as you may find. Considering that you held your office from the Government of King James, it is even possible that a charge of treason may lie against you. It rests with your successor entirely whether ye're hanged or not."

Bishop rapped out an oath, and then, shaken by a sudden fear: "Who the devil may you be?" he asked.

"I am Lord Willoughby, Governor-General of His Majesty's Colonies in the West Indies. You were informed, I think, of my coming."

The remains of Bishop's anger fell from him like a cloak. He broke in to a sweet of fear. Behind him Lord Julian looked on, his handsome face suddenly white and drawn.

"But, my Lord—" began the Colonel.

"Sir, I am not concerned to hear your reasons," his Lordship interrupted harshly. "I am on the point of sailing and I have not the time. The Governor will hear you and no doubt deal justly by you." He waved to Major Mallard, and Bishop, a crumpled, broken man, allowed himself to be led away.

To Lord Julian, who went with him, since none deterred him, Bishop expressed himself when presently he had sufficiently recovered.

"This is one more item to the account of that scoundrel Blood," he said through his teeth. "My God, what a reckoning there will be when we meet!"

Major Mallard turned away his face that he might conceal his smile, and without further words led him a prisoner to the Governor's house that so long had been Colonel Bishop's own residence. He was left to wait under guard in the hall, whilst Major Mallard went ahead to announce him.

Miss Bishop was still with Peter Blood when Major Mallard entered. His announcement startled them back to realities.

"You will be merciful with him. You will spare him all you can for my sake, Peter," she pleaded.

"To be sure I will," said Blood, "but I'm afraid the circumstances won't."

She effaced herself, escaping into the garden and Major Mallard fetched the Colonel.

"His Excellency, the Governor, will see you now," said he, and threw wide the door.

Colonel Bishop staggered in and stood waiting.

At the table sat a man of whom nothing was visible but the top of a carefully curled, black head. Then this head was raised, and a pair of blue eyes solemnly regarded the prisoner. Colonel Bishop made a noise in his throat, and stared into the face of His Excellency, the Deputy-Governor of Jamaica, which was the face of the man he had been hunting in Tortuga to his present undoing.

The situation was best expressed to Lord Willoughby by Van der Kuylen as the pair stepped aboard the Admiral's flagship.

"Id is fery boedigal!" he said, his blue eyes twinkling. "Cabdain Blood is fond of boedry—you remember de abble blossoms. So? Ha, ha!"

Thomas Meighan and Estelle Taylor in a scene from James Oliver Curwood's "The Alaskan." A Herbert Brenon Production. A Paramount Picture.

"The Alaskan," Starring Thomas Meighan, at the New Park Tonight, Tuesday and Wednesday

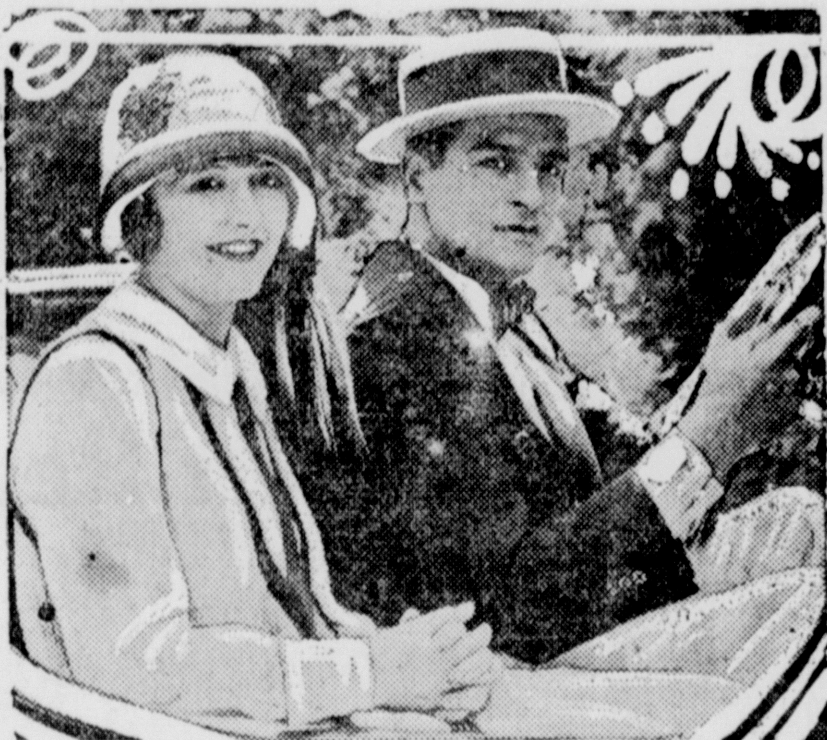

Wantonly violating the sanctity of a mother's grave, John Graham laid the foundation of a mighty hatred. Upon this incident is based the story of Thomas Meighan's latest starring vehicle, "The Alaskan," which Willis Goldbeck adapted from James Oliver Curwood's famous novel of the same

name. Local movieites will soon have the opportunity of seeing America's favorite star in the greatest picture of his screen career.

Produced for Paramount by Herbert Brenon, "The Alaskan" is said to be the year's outstanding success as an out-door picture. The entire company was transported to the wilds of Alberta and British Columbia where all of the exterior scenes were filmed.

Featured in the cast chosen to support Thomas Meighan are Estelle Taylor, John Sainpolis, Charles Ogle, Frank Campeau and Anna May Wong.

"The Alaskan" is founded upon a conflict between native-born Alaskans, sons of the gold-rush pioneers, and the powerful financial interests which strove to gain control of Alaskan industries. At the New Park tonight, Tuesday and Wednesday.

Scene from "SPORTING YOUTH" STARRING Reginald Denny
Supported by Laura La Plante A UNIVERSAL JEWEL

Denny Stars in Big Auto Racing Film and tremendous and powerful; some Probably every picture-goer has smashing climax that will lift me off experienced this feeling, that— my seat,"—then had his illusions shattered when the climax fell short ing up to something—something big of his hopes.

So it's refreshing beyond words to see a film that carries you along with rollicking action, suggestive at all times that this is good, but there's better coming, teasing you, holding you, promising you that all the entertainment features are merely love taps, that soon you're to be knocked dizzy with the real thing—and then makes good.

"Sporting Youth," which opened last night at the Lyceum Theatre and which has its last showings tonight, does just this. Our advice is—don't miss seeing "Sporting Youth" tonight.

Not All Stirred by Politics

Great political questions stir the deepest nature of one-half the nation; but they pass far above and over the heads of the other half.—Wendell Phillips.

There's no reason for even considering high prices this Fall

We can understand how a man feels when he wants a certain something and is willing to pay a few dollars extra rather than take "No" for an answer.

"I'll pay \$100 if necessary, to get the suit I want," said a customer to us last Saturday—

Here is our reply:

"The exact suit you have described—the particular fabric—the very model—right down to the stitching on the button holes is here in these cases at \$45—and if you'd like to see it—just say the word."

"Go ahead," he said.

"Go ahead," we did—and within 2 hours our delivery boy was headed for this particular man's particular address with the prescription filled at a saving of \$55 to the patient.

ROBBERS INVADE N. E. BRAINERD

Attempt to Steal at Business Places
of Eagle Market, Jerry Crowley
and George Ebinger

LATTER GIVES THE ALARM

Plate Glass Window Worth \$30
Smashed by Robbers at the
Eagle Market and Grocery

Kindred street or "A" street as it
is now known, business thoroughfare
of Northeast Brainerd, was visited
by a gang of thieves early Saturday
morning and as far as known, three
attempts to steal were made but little
booty secured.

At the Eagle Market and Grocery,
121 "A" street, S. A. Saxrud the pro-
prietor, states that the gang tried to
get in the rear of his store, that they
took off a screen from the backdoor.
Failing to gain entrance that way,
they tried the windows, but found them
barred. Then they went to the
front door and smashed a small plate
glass window estimated to be worth
\$30. The building is owned by C.
W. Koering and no plate glass insur-
ance is carried, said Mr. Saxrud. The
cash register was not touched and so
far as known, said Mr. Saxrud, little
or nothing was stolen from the stock
of goods.

From the Eagle Market and Gro-
cery the thieves went to Jerry Crow-
ley, who conducts a soft drink place
at 115 "A" street. Entrance was
gained through the back way, a win-
dow being broken. There was noth-
ing in the cash register, and the
thieves rapped the key \$40 to open
it. So far, Mr. Crowley had found
no loss sustained, said Mr. Saxrud.

About 5 o'clock in the morning the
gang visited the George Ebinger shoe
store at 113 "A" street. Mr. Ebinger
sleeps in the rear of his store and
was awakened by the noise of some
one attempting to open the rear win-
dow. In the dim light Mr. Ebinger
was able to make out the form of one
man of the group. He shouted and
the gang fled.

MISSIONARY SOCIETY

Entertained on Wednesday After-
noon at the Home of Mrs.
Robert Duerr

The Missionary society of the First
Congregational church met on Wed-
nesday afternoon at the home of Mrs.
Robert Duerr. The study of "Ming-
Kwong" was taken up and the fol-
lowing program was carried out:

A Day in Ming-Kwong—Mrs. E. P.
Slipp.

Readings from "Young China"—
Mrs. C. A. Allbright.

The Chinese Classics—Mrs. Dan
Smith.

History, "The Land of China"—
Mrs. Conrad.

Canton in 1807, simultaneous read-
ing.

Printing the Scriptures in China—
Mrs. Duerr.

Reading, "A Plea for the Twelve"
(Mrs. E. C. Cronk)—Mrs. C. H. Long,
which made a plea, out of the 8748
hours in the year, for 12 hours for
missions.

It afforded much pleasure that Miss
Sadie Robinson, former secretary of
the Missionary society, had a part
in the program, as clippings from
the Cleveland, O., papers had been
sent by Mrs. Robinson to Brainerd
friends, showing the heads of Bud-
dha and Bodhisattva, over one thou-
sand years old in Chinese sculpture.
These heads come to the Cleveland
museum of art from the great cave
temple of "Lung-Men" in Honan pro-
vince, China. These facts were pre-
sented by Mrs. L. P. Hall.

A social hour followed the pro-
gram, with dainty refreshments serv-
ed by the hostess.

Joseph Regan Coming

Joseph Regan, the new singing
actor whom Augustus Pitou has plac-
ed under a long term contract, is un-
derlined for an early appearance at
the New Park. "Heart O'Mine," by
Harry Chapman Ford, is the title of
the new play provided for Mr. Regan.
Mr. Regan appears in the role of a
rollicking young Irishman and as
impersonated by him the character
becomes a very interesting one. The
supporting company and production
will be up to the usual Pitou stand-
ard.

Women's Relief Corps

The Women's Relief Corps will
hold a special meeting, Tuesday at
2:30 o'clock at the I. O. O. F. hall.
The inspector from Duluth will be
present to inspect the corps and
would like to have all members pres-
ent. Invitation extends to the Grand
Army. Light refreshments will be
served.

NO REGISTRATION DAY IN BRAINERD

State Law Provides Election Board
is to Meet on Tuesday Preced-
ing Election

TO ADD ANY NAMES TO LIST

Corrections to be Made, Names Being
Erased of Those Not Entitled
to Vote

There will be no registration day
in Brainerd prior to the general elec-
tion on November 4th. Instead, the
state law provides that the election
board shall meet on the Tuesday pre-
ceding the election, for the purpose
of adding any names to the list of
voters obtained since the last elec-
tion.

The law reads as follows: Regis-
tration of voters not required in
cities of the fourth class—That in
all cities of the fourth class in the
state of Minnesota operating under
home rule charters, in which said
charters there is no express provision
made for holding a registration day
or days for voters prior to the an-
nual charter election, there shall not
be any registration day or days for
voters prior to such election.

In cities of the fourth class the
board shall meet on the Tuesday pre-
ceding such election at the place
where the same is to be held, and re-
main in session from nine o'clock a.
m. until nine o'clock p. m., for the
purpose of making corrections in
such lists, the time and place of
meeting to be noted on the list pre-
viously posted. In making such cor-
rection the board shall add to such
lists the names of all other persons
shown to be entitled to vote in that
district at such election, and erase
therefrom the names of all shown
not to be entitled so to vote.

The names of the voters at the
last election have already been post-
ed in the various wards, according
to law, and to this list will be added
any others entitled to vote on No-
vember 4th, or those erased who are
not entitled to vote, at the meeting
of the election board Tuesday, Octo-
ber 28th.

LaFOLLETTE IN MILL CITY

Will Speak at Minneapolis Armory, 8
O'clock, Thursday Evening,
October 16

Senator Robert M. LaFollette, in-
dependent candidate for President,
will speak at the Armory in Minne-
apolis at 8 o'clock Thursday evening,
October 16th, according to advice re-
ceived by Crow Wing County Chair-
man for the LaFollette-Wheeler-
Farmer-Labor State Committee, I. C.
Strout.

An admission charge of \$1.00 for
each person will be made, a part of
which goes to defray Sen. LaFollette's
expenses on this trip to the north-
west and the balance will go to the
state campaign fund. This method
of "the people paying for their own
campaign" is used wherever LaFol-
lette speaks.

A block of seats has been reserved
for Crow Wing county but not less
than 10 tickets must be sold in ad-
vance in order to hold them and
Chairman Strout requests that those
planning on making the trip from
here get in touch with him before
Tuesday noon.

Cars are being arranged for by the
county committee and all those hav-
ing no means of transportation will
be taken care of.

This will be Fighting Bob's only
visit to this state before November
4th on a speaking engagement, ac-
cording to the information received
from state headquarters and no doubt
many of his followers and others
from all over Minnesota will take the
opportunity to hear him.

IMPROVES TAXI SERVICE

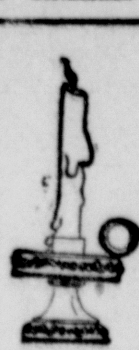

George Stein Replaced Burned Car
With a Buick Master

Six
George Stein, whose taxi was de-
stroyed several weeks ago by fire on
Trunk highway No. 27, south of the
city, now has a fine new enclosed car
to take its place, and feels that he
is better equipped than ever to give
the public real taxi service.

The new car is a Buick master six,
with a permanent top and Rex en-
closure. It seats seven passengers
comfortably and is said to be the last
word in taxi service. It is the larg-
est model that the Buick manufac-
tures and is the pride of that com-
pany's line.

Mr. Stein's taxi stand is at the
Ransford hotel, with day and night
service.

we will sell you at \$2.00.
Black and colors. Tues-
day only.

Another Letter

From a Former Employee

Williams, Minn.,
Oct. 3, 1924.

Gentlemen:

In thinking of the 20th Anniversary you are about
to celebrate I enjoyed living over the five years spent in your
employ beginning with the opening day. I remember the
bare looking place still "smelly" with varnish and paint.
Everything so new that nothing seemed "at home." Things
were spread out for display and to fill up space. New
Goods coming on every train and in course of time one de-
partment after another was born and presided over with
great pride by the faithful few. I look upon those years
as an important epoch in my life and I expect to enjoy and
continue to pass on to others the advantages which you gave
me in making me a useful member of the "Michael family."
We worked hard but gladly appreciating the short hour
plan you launched and which soon became general. For-
tunate is one who has been or is privileged to spend a few
years at least employed where honesty in "Preach and
Practice" is the rule from a to z.

*** May you be privileged to go on and your ambi-
tions be realized and know this that those who have "grad-
uated" and passed on to live their lives of usefulness in
various fields can and do, still appreciate what you did for
them.

Kindest regards to all,

I remain sincerely,

CLARA FULLER WEAVER.

At 20c

The best 25c and 30c per-
cales, light and dark.
Tuesday only.

At 20c

Figured materials for
comforters, this for Tues-
day only.

At 20c

A large sized bleached
Turkish towel. Tuesday
only.

At 20c

Any 25c or 29c handker-
chief, beautiful qualities
too. Tuesday only.

At \$2.00

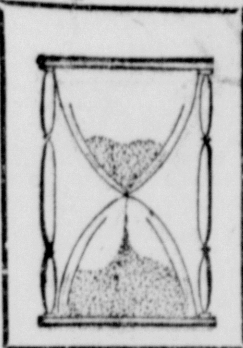

Your choice of a number
of pretty wash dresses,
worth up to \$3.25, Tues-
day only.

At \$2.00

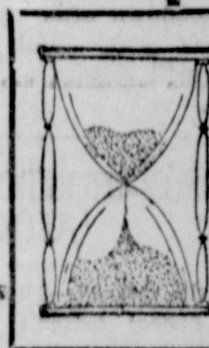

72 inch bleached all linen
table damask, our \$3.39
quality—but one cloth to
a customer, Tuesday only.

And a Wide Selection Tuesday at \$20.00

An extra special for Tuesday only which should prove most interesting at this time. To every woman who selects
a coat or dress from our large line selling at \$19.50 or \$19.75 we will give the choice of any pair of gloves or
hosiery selling up to \$3.00 the pair. And we have a large line of both coats and dresses
from which to select. Be sure you take advantage of this Birthday offering.

A. L. SHEETS DIED IN CROSBY SUNDAY

Former Resident of Brainerd Died
From Acute Inflammation of
the Heart

WAS ILL ABOUT 8 WEEKS

Was Associated With Brainerd Pub-
lishing Co. and Later Edited
Crosby Courier

Arthur Lester Sheets, former resi-
dent of Brainerd, passed away at
4:30 o'clock Sunday morning, at his
home in Crosby, death resulting from
acute inflammation of the heart, fol-
lowing an illness of about eight
weeks.

Mr. Sheets was born in Long
Prairie, July 5th, 1882. He was
married there in September 1909 to
Miss Pauline Stein, and lived in Long
Prairie practically all of the time un-
til he came to Brainerd in 1916.

He was associated with the Brainerd
Publishing Company for about
two years, when he went to Crosby
and for two years edited the Crosby
Courier for the stock company that
owned it, and has worked for the
present owner, Theodore Johnson,
since he purchased the paper.

In Long Prairie Mr. Sheets was as-
sistant postmaster for eight years,
and for five years edited the Todd
County Argus.

Deceased is survived by his wife
and six children, three boys and
three girls, the oldest being fourteen
years of age. Also five brothers, and
two sisters, John of Blaine, Wash-
ington; Ralph, of Brainerd; Sylvan,
of Clearbrook; Merriam of Long
Prairie and Ivan, Mrs. India Owen
and Mrs. Jack MacPherson, both of
Minneapolis. A brother, a sister,
and the father passed away some
years ago. The mother now resides
in Miami, Florida.

Mr. Sheets was a member of the
Masonic lodge of Long Prairie, and
the Elks lodge of Brainerd. He was
active in the Crosby fire department,

being secretary for several years, and
was instrumental in getting the state
firemen's convention for Crosby in
1925.

The funeral will be held in Crosby
on Tuesday morning, Elks and fire-
men acting as pallbearers. The fun-
eral cortege will leave at one o'clock
for Long Prairie and will be met
there by the Masonic order which
will have charge of the services at
the grave Tuesday afternoon.

Mr. Sheets was of a pleasant dis-
position, a kind and loving husband
and father. He made many friends
wherever he lived. Those in Brainerd
will learn of his passing with
sincere regret and will join in offer-
ing sympathy to the bereaved family
and other relatives.

Clara Lutheran Church

The Lutheran Brotherhood will
meet in the church parlors tonight.
K. O. Bergstrand and Carl Sundwall
will entertain.

1st Congregational Aid

The ladies aid of the First Con-
gregational church will meet in the
church parlors Wednesday afternoon.
Those having birthdays in July and
August will be entertained at the
birthday tables.

Lowell P. T. A.

The Lowell Parent-Teachers As-
sociation will meet tomorrow eve-
ning at 8 o'clock. A program is being
prepared. Several important matters
will come before the meeting and a
large attendance is desired.

Bethlehem Men's Club

The Men's club of the Bethlehem
Lutheran church will be entertained
Thursday evening by S. Swanson and
Theo. Newgard.

N. W. Central Education Assn. Meets
Moorhead, Minn., Oct. 13.—Prelim-
inary registration of delegates to the
17th annual meeting of the Northwest
Central Education association and
demonstration classwork at the Moor-
head school marked the opening ses-
sion yesterday. The feature address
the first day was given by Seumas
MacManus, an Irish author, who read
from his works.

Make Your Money Make More Prosperity

Whatever helps Brainerd to prosper increases
your own chances for prosperity. And one thing
that makes a town prosperous is large bank de-
posits, which enable the bank to give proper sup-
port to farmers and business men.

Bank your money promptly at this safe, progres-
sive state bank. By doing so you will help both
yourself and your home community.

ROBBERS INVADE N. E. BRAINERD

Attempt to Steal at Business Places
of Eagle Market, Jerry Crowley
and George Ebinger

LATTER GIVES THE ALARM

Plate Glass Window Worth \$30
Smashed by Robbers at the
Eagle Market and Grocery

Kindred street or "A" street as it is now known, business thoroughfare of Northeast Brainerd, was visited by a gang of thieves early Saturday morning and as far as known, three attempts to steal were made but little booty secured.

At the Eagle Market and Grocery, 121 "A" street, S. A. Saxrud the proprietor, states that the gang tried to get in the rear of his store, that they took off a screen from the backdoor. Failing to gain entrance that way, they tried the windows, but found them barred. Then they went to the front door and smashed a small plate glass window estimated to be worth \$30. The building is owned by C. W. Koering and no plate glass insurance is carried, said Mr. Saxrud. The cash register was not touched and so far as known, said Mr. Saxrud, little or nothing was stolen from the stock of goods.

From the Eagle Market and Grocery the thieves went to Jerry Crowley, who conducts a soft drink place at 115 "A" street. Entrance was gained through the back way, a window being broken. There was nothing in the cash register, and the thieves rapped the key \$40 to open it. So far, Mr. Crowley had found no loss sustained, said Mr. Saxrud. About 5 o'clock in the morning the gang visited the George Ebinger shoe store at 113 "A" street. Mr. Ebinger sleeps in the rear of his store and was awakened by the noise of some one attempting to open the rear window. In the dim light Mr. Ebinger was able to make out the form of one man of the group. He shouted and the gang fled.

MISSIONARY SOCIETY

Entertained on Wednesday Afternoon at the Home of Mrs. Robert Duerr

The Missionary society of the First Congregational church met on Wednesday afternoon at the home of Mrs. Robert Duerr. The study of "Ming-Kwong" was taken up and the following program was carried out:

A Day in Ming-Kwong—Mrs. E. P. Slipp.

Readings from "Young China"—Mrs. C. A. Albright.

The Chinese Classics—Mrs. Dan Smith.

History, "The Land of China"—Mrs. Conrad.

Canton in 1807, simultaneous reading.

Printing the Scriptures in China—Mrs. Duerr.

Reading, "A Plea for the Twelve"—(Mrs. E. C. Cronk)—Mrs. C. H. Long, which made a plea, out of the 8748 hours in the year, for 12 hours for missions.

It afforded much pleasure that Miss Sadie Robinson, former secretary of the Missionary society, had a part in the program, as clippings from the Cleveland, O., papers had been sent by Mrs. Robinson to Brainerd friends, showing the heads of Buddha and Bodhisattva, over one thousand years old in Chinese sculpture. These heads came to the Cleveland museum of art from the great cave temple of "Lung-Men" in Honan province, China. These facts were presented by Mrs. L. P. Hall.

A social hour followed the program, with dainty refreshments served by the hostess.

Joseph Regan Coming

Joseph Regan, the new singing actor whom Augustus Pitou has placed under a long term contract, is underlined for an early appearance at the New Park. "Heart O'Mine," by Harry Chapman Ford, is the title of the new play provided for Mr. Regan. Mr. Regan appears in the role of a rollicking young Irishman and as impersonated by him the character becomes a very interesting one. The supporting company and production will be up to the usual Pitou standard.

Women's Relief Corps

The Women's Relief Corps will hold a special meeting, Tuesday at 2:30 o'clock at the I. O. O. F. hall. The inspector from Duluth will be present to inspect the corps and would like to have all members present. Invitation extends to the Grand Army. Light refreshments will be served.

NO REGISTRATION DAY IN BRAINERD

State Law Provides Election Board is to Meet on Tuesday Preceding Election

TO ADD ANY NAMES TO LIST

Corrections to be Made, Names Being Erased of Those Not Entitled to Vote

There will be no registration day in Brainerd prior to the general election on November 4th. Instead, the state law provides that the election board shall meet on the Tuesday preceding the election, for the purpose of adding any names to the list of voters obtained since the last election.

The law reads as follows: Registration of voters not required in cities of the fourth class—That in all cities of the fourth class in the state of Minnesota operating under home rule charters, in which said charters there is no express provision made for holding a registration day or days for voters prior to the annual charter election, there shall not be any registration day or days for voters prior to such election.

In cities of the fourth class the board shall meet on the Tuesday preceding such election at the place where the same is to be held, and remain in session from nine o'clock a. m. until nine o'clock p. m., for the purpose of making corrections in such lists, the time and place of meeting to be noted on the list previously posted. In making such correction the board shall add to such lists the names of all other persons shown to be entitled to vote in that district at such election, and erase therefrom the names of all shown not to be entitled so to vote.

The names of the voters at the last election have already been posted in the various wards, according to law, and to this list will be added any others entitled to vote on November 4th, or those erased who are not entitled to vote, at the meeting of the election board Tuesday, October 28th.

LaFOLLETTE IN MILL CITY

Will Speak at Minneapolis Armory, 8 O'clock, Thursday Evening, October 16

Senator Robert M. LaFollette, independent candidate for President, will speak at the Armory in Minneapolis at 8 o'clock Thursday evening, October 16th, according to advice received by Crow Wing County Chairman for the LaFollette-Wheelwright-Farmer-Labor State Committee, I. C. Strout.

An admission charge of \$1.00 for each person will be made, a part of which goes to defray Sen. LaFollette's expenses on this trip to the northwest and the balance will go to the state campaign fund. This method of "the people paying for their own campaign" is used wherever LaFollette speaks.

A block of seats has been reserved for Crow Wing county but not less than 10 tickets must be sold in advance in order to hold them and Chairman Strout requests that those planning on making the trip from here get in touch with him before Tuesday noon.

Cars are being arranged for by the county committee and all those having no means of transportation will be taken care of.

This will be Fighting Bob's only visit to this state before November 4th on a speaking engagement, according to the information received from state headquarters and no doubt many of his followers and others from all over Minnesota will take the opportunity to hear him.

MOST VALUABLE PLAYERS IN BASEBALL

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Oct. 13.—Regardless of the official vote which decided the most valuable players in the major leagues, there will be plenty of material for argument during the winter season about the best players of the season.

One day during the summer, John A. Heydler, president of the National League, took occasion to express the opinion that Rogers Hornsby, the St. Louis star, was a greater ball player than the great Babe Ruth. The argument was taken up by the Ruth fans, and it is still a good subject for a debate.

Some time later a New York baseball writer, with no purpose of stirring up a civil war in the National League, caused a civic uprising in St. Louis baseball when he wrote that Frankie Frisch, the Giant second baseman, was a better player than Hornsby.

The argument about the respective merits and ability of Babe Ruth and Hornsby has more angles and possibilities than the one about the two National League stars.

Hornsby was the champion batter for 1924 in the National League. He was first with the fine mark of .424, and established two new records. He bettered by four points the record made by George Sisler in 1922 and he broke the record he had held with Hans Wagner by winning the batting championship for five consecutive seasons.

Ruth won his first American League batting championship with an average of .389. He was the champion home-run hitter of the season, with 46 to his credit, and he was leading run-getter of the major leagues with 143.

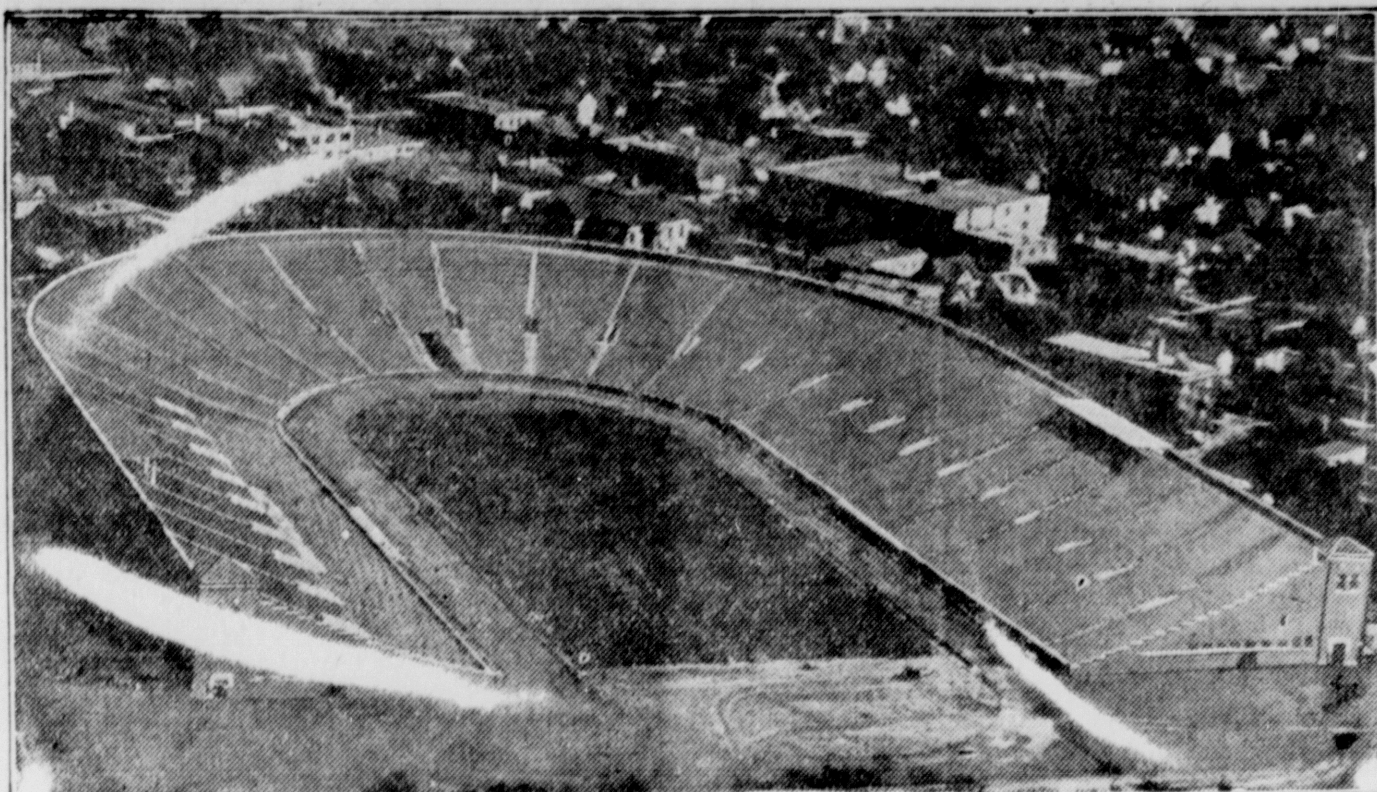

Hornsby and Frisch were tied for run-scoring in the National League, with 121 each.

Hornsby hasn't the team with him that Ruth has, but it is recalled that the Babe carried the burden of keeping the Yankees in the pennant race almost alone during one-third of the 1924 pennant race. Without Ruth the Yankees, in the opinion of a number of good baseball men, might have finished as low in the American League race as the St. Louis Cards did in the National League.

Avoiding any consideration of the monetary value Ruth's great drawing power has at the gate, it would seem that the Babe is a better ball player than Hornsby.

Hornsby hits more, it is true, but that doesn't mean everything. A player might be able to hit .500 over a season and wouldn't be any more valuable than a player who hit .200 but who drove in a run every time he got a hit.

Baseball games are won by runs, and the most valuable batters are those who knock in runs. The Babe is the greatest run-getter in the major leagues, even if it is due, perhaps, to the large number of home runs that he gets.

University of Minnesota, Oct. 13.—

For the first time since 1903, when Northrop Field was built in the form in which it stood through the season of 1923, the University of Minnesota has a football field in keeping with the needs of the institution and the excellent reputation of Minnesota teams.

The Memorial Stadium, commemorating all Minnesotans who have given their lives in defense of their country, whether in the World War or earlier conflicts, has been built by the subscriptions of students, graduates, faculty members and friends, who have pledged nearly \$2,000,000 for a stadium and an auditorium.

Of this sum about \$650,000 has been put into the stadium, to which the athletic association has added \$70,000 for the actual playing field, the locker and team rooms, shower baths, coaches quarters, running track, and the like. The remainder of the pledges will be devoted, as collected, to the construction of a huge auditorium, to be the center of University group life.

Minnesota opened the stadium Oct. 4, winning from North Dakota 14 to 0 in a slow contest which was played before 16,000 persons, the largest opening crowd on record. The structure seats a few more than 50,000 persons. The utmost capacity of the

old field was 22,000. The entire capacity is expected to be sold for such big games of the present season as that with Michigan, Nov. 1 and with Illinois, Nov. 15. The Michigan game will be Homecoming for Alumni, while the Illinois game will see the Stadium dedication exercises.

The first practice in the new stadium was held on Saturday, Oct. 4. Clarence Schutte, halfback from Aberdeen, S. D., made the two first touchdowns in the arena. George Abramson of Aurora kicked goal following each of them. These were in the North Dakota game. Last Saturday Minnesota beat the Haskell Indians by a score of 20 to 0.

SAINTS ON TRAIL

OF THE ORIOLES

EACH HAS WON 4 GAMES AND
TIED ONCE—RUBBER
TODAY

(By United Press)
St. Paul, Oct. 13.—St. Paul struggled with Baltimore today for the junior world series championship and both teams struggled against the jinx—Blue Monday, the thirteenth. Evening the standing by winning Saturday and Sunday, making it four games apiece, the Saints were hot on the trail.

Yesterday's win, 2 to 1, was brought in by old Paul Flittery, who had 42 years of baseball back of his arm as he held the slugging Orioles to five hits and struck out seven men.

FAKE TIME MAKES SPRINTER THINK HE'S ANOTHER PADDOCK

Lafayette, Ind., Oct. 13.—During the balmy spring days of 1924 at Purdue university, a diminutive member of the freshman class was clocked by three watches at 9 3-5 seconds for the 100-yard dash.

Roy Green, innocent appearing yearling, reported to Track Coach O'Connor to try out for the century.

Several members of the squad decided to have some fun at his expense. Three trackmen set as many watches at 9 3-5 seconds, a fourth fired the starting pistol. Green covered the distance in something like 15 seconds, yet the watches all showed his time to be 9 3-5 seconds. He was highly elated.

The innocent victim, thinking he was a second Charley Paddock, made application to enter the Olympic try-outs. It was weeks before the staff could convince him of the hoax. He is still trying to get the freshman class to publish a public apology in the university newspaper.

Magnus Speaks at Warren

Warren, Minn., Oct. 13.—Sen. Magnus Johnson addressed farmers and business men here. Knud Wefald, Farmer-Labor candidate from this district, accompanying Sen. Johnson, also delivered an address.

Senators Win Sixth Game and Even Series

The Senators won the sixth game 2 to 1, thus evening the series. Photo shows Peckinpugh crossing the plate with the tying run, and McNeely, scoring right behind him, both registering on Harris' double.

BRITISH POLO PLAYER OWES LIFE TO AMERICANS

London, Oct. 13.—Renewed interest in the Near-eastern refugee situation has been stirred in England by publication of the memoirs of Col. A. Rawlinson, whose post-war experiences in Armenia and Turkey were filled with heroism and hardship. He spent twenty months in Turkish prisons. He has unbounded praise for the work of the American Near East Relief, to which he owed his life. Famous before the war as a pioneer motorist, aviator and polo player, he will devote the remainder of his life to humanitarian work.

N. D. Horses Are in Demand

Fargo, N. D., Oct. 13.—Orders for 28 carloads of North Dakota horses have been received by the state farm bureau, according to L. B. Johnson, in charge of this department of the bureau work. Thirty-two carloads were sold last year, shipments beginning the latter part of January.

SUSPICIOUS FELLOW WAS SAFECRACKER

POLICE FIND \$200 BOOTY AND
SAFE-CRACKING TOOLS ON
HIS PERSON

(By United Press)
Minneapolis, Oct. 13.—A man arrested as a suspicious character last night turned out to be a safe-cracker.

He had just finished a job on an oil filling station and still carried \$200 and his tools with him. He gave the name of Anton Gressell, St. Paul.

Sweet Clover Runs 20 Bushels

Ada, Minn., Oct. 13.—Carl Skaud, a farmer residing near Beltrami, threshed 20 bushels of sweet clover to the acre. He received \$6 per bushel for the seed, which was at the rate of \$120 an acre.

BRAINERD HIGH 12, LITTLE FALLS 0

GAME SATURDAY FEATURED BY
ROSENBERG'S 80 YARD RUN
FOR TOUCHDOWN

Brainerd high school defeated their ancient rival, Little Falls, in a hard-fought battle last Saturday by a score of 12 to 0.

The game was featured by Rosenberg's sensational run of 80 yards for a touchdown after intercepting a forward pass. Full details of the game will appear in Tuesday's Dispatch.

CROSBY-IRONTON 47 AITKIN HIGH 0

Aitkin, Oct. 13.—The Crosby-Ironton high school football team shut out the Aitkin team in a 47 to 0 game, played here on Saturday. The winners outplayed the locals at every turn of the game, and are reported to have used their second team men in the last half.

MINNESOTA 20 HASKELL INDIANS 0

Minneapolis, Oct. 13.—Minnesota prepared for the big Wisconsin battle by trimming the Haskell Indians on Saturday to the tune of 20 to 0. Malcolm Graham, the Gopher's fast quarterback was injured early in the game, but needs only rest to bring him back to form. Ascher brought much distinction upon himself in breaking up many of the Indians' passes and in his kicking.

N. D. Independents Gather at Fargo

Fargo, N. D., Oct. 13.—Independents of Cass county, Republicans and Democrats alike, will meet in Fargo to formulate plans for the fall campaign. A joint call was issued by J. A. Jardine, chairman of the Republican county committee, and J. W. McHose, chairman of the Democratic county committee. Halvor Halvorsen, fusion candidate for governor, and John E. Paulson, fusion candidate for lieutenant governor, will address the meeting.

Dempsey Says He Was Knocked Out

When local fight fans watch the exciting battle between Jack Dempsey and Angel Firpo, for the heavy-weight championship of the world at the Lyceum Theatre Tuesday, Oct. 14 they will see what can be accomplished through the power of the sub-conscious mind. Dempsey recently stated in an article published in a popular magazine that in his fight with Firpo, he was knocked out

as far as his head was concerned but that his sub-conscious mind carried him through. He even stated that he does not remember going through the ropes.

These pictures will be shown in connection with the regular feature program but will be shown one day only, Tuesday, matinee and night.

Bird Banding Return

A clipping of the item appearing in a recent issue of the Sentinel-Blaze about Ben Jenkins shooting a tagged mallard at Rice lake near Remer was sent to the Biological Survey at Washington, D. C.

A card was received this week, stating bird carrying band No. 205, 956 was a mallard banded at Culvre Island, Mo., on February 20, 1924, by L. V. Walton. By means of these numbered aluminum bands an important investigation relative to the migration and life histories of our native birds is being advanced. —Pine River Sentinel-Blaze.

Willmar Opens \$100,000 School

Willmar, Minn., Oct. 13.—Opening of the new \$100,000 Lincoln school building here will take place next week.

SQUIRE EDGE GATE—Pretty Soft for Mac, Eh?

MOST VALUABLE PLAYERS IN BASEBALL

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Oct. 13.—Regardless of the official vote which decided the most valuable players in the major leagues, there will be plenty of material for argument during the winter season about the best players of the season. One day during the summer, John A. Heydler, president of the National League, took occasion to express the opinion that Rogers Hornsby, the St. Louis star, was a greater ball player than the great Babe Ruth. The argument was taken up by the Ruth fans, and it is still a good subject for a debate.

Some time later a New York baseball writer, with no purpose of stirring up a civil war in the National League, caused a civic uprising in St. Louis baseball when he wrote that Frankie Frisch, the Giant second baseman, was a better player than Hornsby.

The argument about the respective merits and ability of Babe Ruth and Hornsby has more angles and possibilities than the one about the two National League stars.

Hornsby was the champion batter for 1924 in the National League. He was first with the fine mark of .424, and established two new records. He bettered by four points the record made by George Sisler in 1922 and he broke the record he had held with Hans Wagner by winning the batting championship for five consecutive seasons.

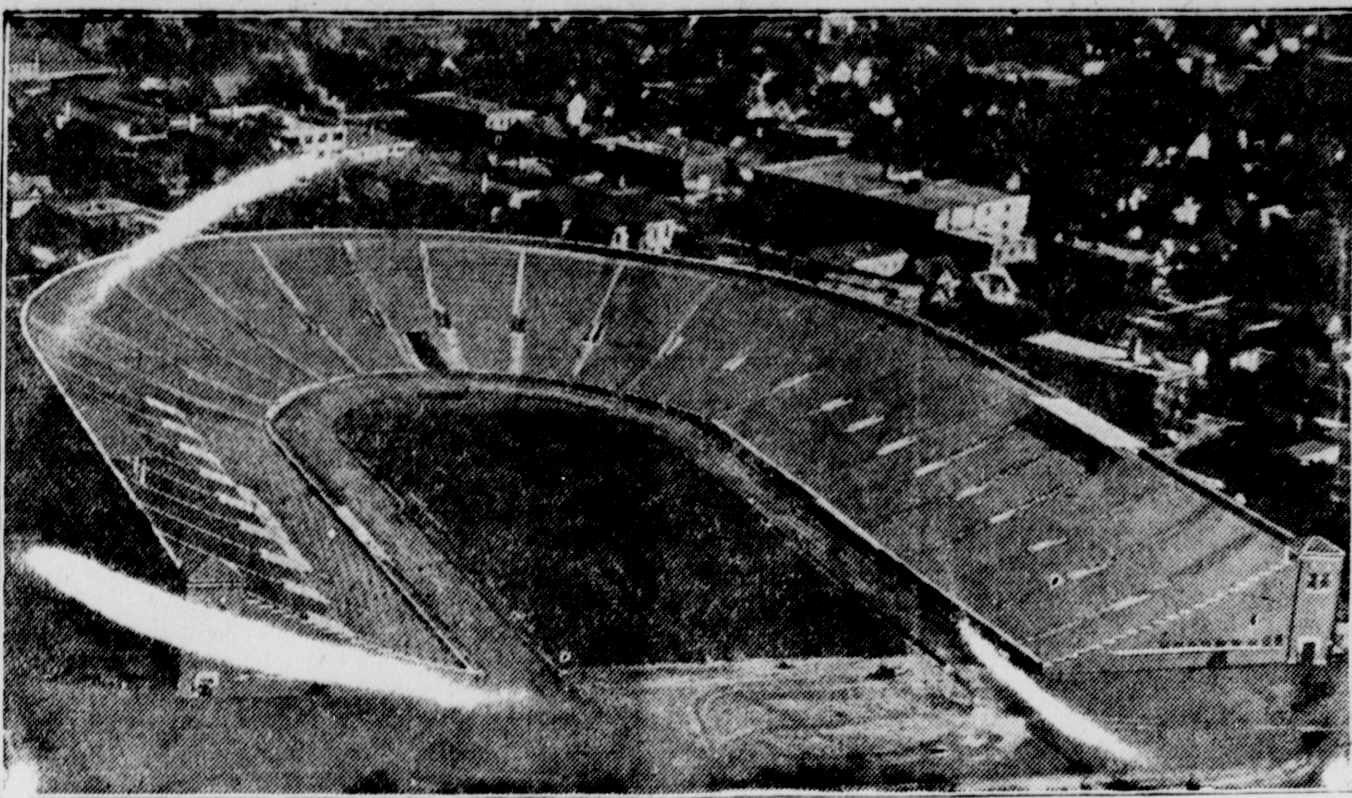

Ruth won his first American League batting championship with an average of .389. He was the champion home-run hitter of the season, with 46 to his credit, and he was leading run-getter of the major leagues with 143. Hornsby and Frisch were tied for run-scoring in the National League, with 121 each.

Hornsby hasn't the team with him that Ruth has, but it is recalled that the Babe carried the burden of keeping the Yankees in the pennant race almost alone during one-third of the 1924 pennant race. Without Ruth the Yankees, in the opinion of a number of good baseball men, might have finished as low in the American League race as the St. Louis Cards did in the National League.

Avoiding any consideration of the monetary value Ruth's great drawing power has at the gate, it would seem that the Babe is a better ball player than Hornsby.

Hornsby hits more, it is true, but that doesn't mean everything. A player might be able to hit .500 over a season and wouldn't be any more valuable than a player who hit .200 but who drove in a run every time he got a hit.

Baseball games are won by runs, and the most valuable batters are those who knock in runs. The Babe is the greatest run-getter in the major leagues, even if it is due, perhaps, to the large number of home runs that he gets.

University of Minnesota, Oct. 13.—For the first time since 1903, when Northrop Field was built in the form in which it stood through the season of 1923, the University of Minnesota has a football field in keeping with the needs of the institution and the excellent reputation of Minnesota teams.

The Memorial Stadium, commemorating all Minnesotans who have given their lives in defense of their country, whether in the World War or earlier conflicts, has been built by the subscriptions of students, graduates, faculty members and friends, who have pledged nearly \$2,000,000 for a stadium and an auditorium.

Of this sum about \$650,000 has been put into the stadium, to which the athletic association has added \$70,000 for the actual playing field, the locker and team rooms, shower baths, coaches quarters, running track, and the like. The remainder of the pledges will be devoted, as collected, to the construction of a huge auditorium, to be the center of University group life.

Minnesota opened the stadium Oct. 4, winning from North Dakota 14 to 0 in a slow contest which was played before 16,000 persons, the largest opening crowd on record. The structure seats a few more than 50,000 persons. The utmost capacity of the old field was 22,000. The entire capacity is expected to be sold for such big games of the present season as that with Michigan, Nov. 1 and with Illinois, Nov. 15. The Michigan game will be Homecoming for Alumni, while the Illinois game will see the Stadium dedication exercises.

The first practice in the new stadium was held on Saturday, Oct. 4. Clarence Schutte, halfback from Aberdeen, S. D., made the two first touchdowns in the arena. George Abramson of Aurora kicked goal following each of them. These were in the North Dakota game. Last Saturday Minnesota beat the Haskell Indians by a score of 20 to 0.

SAINTS ON TRAIL OF THE ORIOLES

EACH HAS WON 4 GAMES AND TIED ONCE—RUBBER TODAY

(By United Press) St. Paul, Oct. 13.—St. Paul struggled with Baltimore today for the junior world series championship and both teams struggled against the jinx—Blue Monday, the thirteenth. Evening the standing by winning Saturday and Sunday, making it four games apiece, the Saints were hot on the trail.

Yesterday's win, 2 to 1, was brought in by old Paul Flittery, who had 42 years of baseball back of his arm as he held the slugging Orioles to five hits and struck out seven men.

FAKE TIME MAKES SPRINTER THINK HE'S ANOTHER PADDOCK

Lafayette, Ind., Oct. 13.—During the balmy spring days of 1924 at Purdue university, a diminutive member of the freshman class was clocked by three watches at 9 3-5 seconds for the 100-yard dash.

Roy Green, innocent appearing yearling, reported to Track Coach O'Connor to try out for the century.

Several members of the squad decided to have some fun at his expense. Three trackmen set as many watches at 9 3-5 seconds, a fourth fired the starting pistol. Green covered the distance in something like 15 seconds, yet the watches all showed his time to be 9 3-5 seconds. He was highly elated.

The innocent victim, thinking he was a second Charley Paddock, made application to enter the Olympic try-outs. It was weeks before the staff could convince him of the hoax. He is still trying to get the freshman class to publish a public apology in the university newspaper.

Magnus Speaks at Warren

Warren, Minn., Oct. 13.—Sen. Magnus Johnson addressed farmers and business men here. Knud Wefald, Farmer-Labor candidate from this district, accompanying Sen. Johnson, also delivered an address.

Senators Win Sixth Game and Even Series

The Senators won the sixth game 2 to 1, thus evening the series. Photo shows Peckinpough crossing the plate with the tying run, and McNeely, scoring right behind him, both registering on Harris' double.

BRITISH POLO PLAYER OWES LIFE TO AMERICANS

London, Oct. 13.—Renewed interest in the Neareastern refugee situation has been stirred in England by publication of the memoirs of Col. A. Rawlinson, whose post-war experiences in Armenia and Turkey were filled with heroism and hardship. He spent twenty months in Turkish prisons. He has unbounded praise for the work of the American Near East Relief, to which he owed his life. Famous before the war as a pioneer motorist, aviator and polo player, he will devote the remainder of his life to humanitarian work.

N. D. Horses Are in Demand

Fargo, N. D., Oct. 13.—Orders for 28 carloads of North Dakota horses have been received by the state farm bureau, according to L. B. Johnson, in charge of this department of the bureau work. Thirty-two carloads were sold last year, shipments beginning the latter part of January.

SUSPICIOUS FELLOW WAS SAFE CRACKER

POLICE FIND \$200 BOOTY AND SAFE-CRACKING TOOLS ON HIS PERSON

(By United Press) Minneapolis, Oct. 13.—A man arrested as a suspicious character last night turned out to be a safe-cracker.

He had just finished a job on an oil filling station and still carried \$200 and his tools with him. He gave the name of Anton Gressell, St. Paul.

Sweet Clover Runs 20 Bushels

Ada, Minn., Oct. 13.—Carl Skaud, a farmer residing near Beltrami, threshed 20 bushels of sweet clover to the acre. He received \$6 per bushel for the seed, which was at the rate of \$120 an acre.
